

RECEIVED OCD
STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION COMMISSION 4 P 3:11

**In the Matter of the Application of Approach
Operating, LLC for Approval of Fourteen
Applications for Permits to Drill, Rio Arriba
County, New Mexico**

Case 14278

**NOTICE OF INTERVENTION AND
REQUEST TO BE HEARD AT THE SEPTEMBER 9 HEARING**

Pursuant to NMAC 19.15.4.11(A), the Rice Family Living Trust ("the Trust") hereby provides its Notice of Intervention in the above captioned proceeding, and respectfully requests that it be afforded an opportunity to be heard at the September 9, 2009 hearing in this matter.

The Trust will be represented in this proceeding by:

Steven Sugarman
1210 Luisa Street, Suite 2
Santa Fe, NM 87505
phone: (505)672-5082
e-mail: stevensugarman@hotmail.com
fax: (302) 689-0819

The Trust has an interest in this proceeding, as it is the surface owner of the land where two of the proposed wells which are the subject of this proceeding are located. Specifically, the Trust owns the surface where the following two wells are proposed:

Rice Well No. 1
T28N R5E NMPM
Lat. 36°38'23.46" N (36.63985 N)
Long. 106°27'4.32" W (-106.45120 W)

Rice Well No. 2
T28N R5E NMPM
Lat. 36°38'8.3394" N (36.635650 N)
Long. 106°26'57.5406" W (-106.4493166 W)

To the extent that the Trust's Notice of Intervention is untimely, the Trust respectfully requests that the Commission exercise its discretion under NMAC 19.15.4.11(B) to allow late intervention. As grounds for this intervention, the undersigned states as follows:

- (1) In a telephone conversation of August 25, the undersigned asked Mr. J. Scott Hall, attorney for the Applicant, if he intended to proceed with the hearing on the application that is now calendared before the Commission for the September 9 hearing. Mr. Hall specifically informed the undersigned that he intended to seek a postponement of the September 9 hearing, and would not take further action with respect to the subject applications until such time as the Applicant has concluded the Rio Arriba County permitting process.
- (2) In a letter of August 28 to the undersigned, Mr. Hall again specifically indicated that "we don't plan on proceeding with the adjudicatory hearing on the state application on September 9." (See Exhibit 1 attached.) Mr. Hall also indicated in his letter of August 28 that he would keep the undersigned informed as to permitting activity in connection with proposed wells on land owned by the Trust.
- (3) Based on Mr. Hall's representations that the September 9 hearing on the applications would be continued until after County permitting proceedings on the subject applications are concluded, the undersigned did not understand that there was an exigency with respect to the filing of a Notice of Intervention in this

matter.

- (4) Notwithstanding Mr. Hall's express representations to the contrary, Mr. Hall filed a motion with the Commission on August 31 seeking, inter alia, administrative approval of the applications and dismissal without prejudice of this proceeding. Furthermore, Mr. Hall seeks to have his motion heard by the Commission at the September 9 hearing. This unanticipated event requires the filing of this Notice of Intervention.
- (5) Despite Mr. Hall's representation that he would keep the undersigned informed as to permitting activity in connection with Rice Well No. 1 and Rice Well No. 2, Mr. Hall failed to provide the undersigned with notice as to the currently pending motion for administrative approval and dismissal without prejudice. The undersigned only learned of the Applicant's August 31 motion today, September 4, 2009.
- (6) The Trust desires to be heard at the September 9 hearing in order to state its opposition to the Applicant's motion, and specifically to the Commission's approval of the applications for Rice Well No. 1 and Rice Well No. 2.

Wherefore, the Trust respectfully provides its Notice of Intervention in this matter, states its opposition to the Applicant's motion generally and to approval of the applications for Rice Well No. 1 and Rice Well No. 2 specifically, and requests an opportunity to be heard at the September 9 hearing.

Respectfully submitted,

 /s/ Steven Sugarman

Re: Rice Family Living Trust

Dear Steve:

This responds to your August 20, 2009 letter. You already have my other letters proposing several dates to schedule an onsite meeting at the proposed location for the Rice No. 1 well. Please respond.

First, you have requested that all further communications from Approach be routed through you. This request will be honored and it is understood that you agree to accept all communications, including any notices required under the New Mexico Surface Owners Protection Act. In this regard, it is noted that you do not maintain regular office hours and appear to have no staff. We have experienced difficulties in making hand-deliveries to your office and are not confident of your availability to accept certified delivery by mail. Accordingly, copies of all our correspondence will also be sent to the e-mail address reflected on your letterhead: STEVENSUGARMAN@HOTMAIL.COM. Let me know if you do not agree with this procedure. In any event, we regard your August 18, 2009 response to my client's August 14, 2009 letter to Mr. Rice as acknowledgement of receipt of the certified mail notice required by NMSA Section 70-12-5A.

Approach has made considerable effort to meet and indeed exceed its obligations to accommodate the surface owner's interests and concerns and to comply with applicable state and local rules. It will continue to do so, but there must be reciprocity. The facts are that, on behalf of your client, you have rejected Approach's proposed Surface Use and Compensation Agreement. No counter-proposal has been made. Approach has also proposed alternate locations for the Rice No. 1 well, but your client has failed to indicate a preference. Further, our efforts to schedule on-site meetings with your client have been unsuccessful.

On behalf of your client, you have requested that negotiations for a surface use agreement be deferred pending the issuance of permits. We will honor your request. However, deferring negotiations shall not impair the rights of my client under its oil and gas lease, under the Surface Owners Protection Act, or otherwise. This shall be consistent with the acknowledgment in your August 18, 2009 letter that your client will provide reasonable accommodation to Approach.

With regard to regulatory permitting, Approach's application for permit to drill the Rice No. 1 has been on file with the Oil Conservation Division for some time. Copies of the most recent APD and satellite photo are enclosed. (Please note: One of the alternate locations which was identified as the Rice No. 2 well will be designated as the Rice No. 1.) As we discussed, we don't plan on proceeding with the adjudicatory hearing on the state application on September 9th. I am looking for a way to avoid duplicative proceedings. Approach has been proactive with Rio Arriba County and has initiated the processes preparatory to making application for a special use permit pursuant to the County's oil and gas ordinance, Ordinance No. 2009-01. We will plan on keeping you informed of the application and permitting activity on your client's surface.

One final comment: A substantial portion of your letter is dominated by inflammatory assertions regarding earlier communications with Mr. Morgan. I have investigated your claims and conclude they are unfounded. Respectfully, I find that debates of this nature are counterproductive and do not plan to be diverted by indulging this one any further. Rather, it is hoped we may work together in a collaborative manner and devote our efforts to forging a mutually agreeable resolution for our clients.

Very truly yours,

J. Scott Hall
