IN THE MATTER OF THE APPLICATION OF APPROACH PERATING, LLC, FOR APPROVAL OF SIX APPLICATIONS FOR PERMITS TO DRILL, RIO ARRIBA COUNTY, NEW MEXICO:

CASE NO. 14141

ORDER OF THE DIVISION

BY THE DIVISION:

These two cases came on for hearing at 9:00 a.m. on June 20, 2008, at Santa Fe, New Mexico, before Examiner David Brooks.

NOW, on this 18th day of July, 2008, the Division Director, having considered the testimony, the record, and the recommendations of the Examiner,

FINDS THAT:

(1) Due public notice has been given, and the Division has jurisdiction of these cases and their subject matter.

(2) Case No. 14134 and Case No. 14141 were consolidated for the purpose of testimony and one order will be issued.

(3) The applicant in Case No. 14134, The Board of County Commissioners of Rio Arriba County ("County"), seeks cancellation or suspension of applications for permits to drill ("APDs") issued to Approach Operating, LLC ("Approach") for the following four wells:

Sena #001	30-039-30386
Sena #002	30-039-30394
Sultemeier #001	30-039-30342

(5) When Approach applied for the APD for the Woolley Family LP #001 on October 11, 2007, Approach believed the proposed location was more than 100 feet from ground water and more than 1000 feet from the nearest surface water. The Division approved the APD for the Woolley Family LP #001 on October 18, 2007 based on those representations. Evidence at the hearing demonstrated that the location is within a wetland and approximately 40 feet from surface water sources. Approach has not begun to drill the Woolley Family LP #001.

(6) Evidence presented at hearing concerning the three other APDs that are the subject of Case No. 14134 raised questions about well location, well siting, usable water depths, prior water development and prior mineral development.

(7) At hearing, Counsel for Approach withdrew the APD application for the Benjamin Trujillo #001. Evidence presented at hearing concerning the five other APD applications that are the subject of Case No. 14141 raised questions about well location, well siting, usable water depths, prior water development and prior mineral development.

(8) OCD Rule 19.15.14.1219 NMAC authorizes the Division Director to direct the Oil Conservation Commission to hear any matter.

**IT IS THEREFORE ORDERED THAT:**
