

2/14/10

1 MR. EZEANYIM: We go into today's  
2 docket. Today, we have a docket. The docket number  
3 is 4-10, and before we continue, we will have to read  
4 all the continuances and all the dismissals. On page  
5 1, Case 14387 is continued to March 4. On page 2,  
6 Case 14417 is dismissed. Case Number 14421 is  
7 continued to March 4. On page 3, Case Number 14425  
8 is continued to March 4. Case Number 14426 is  
9 continued to March 4. Case Number 14427 is continued  
10 to March 4. On page 4, Case Number ~~14428~~ is  
11 continued to March 4. Case Number 14429 is continued  
12 to March 4. Case Number 14412 is continued to March  
13 4. Case Number 14411 is continued to March 4.

14 You can see that everything is continued to  
15 March 4 because it is a regular docket. We couldn't  
16 continue any of the docket applications here to the  
17 next docket, which is provide it because it's a  
18 constant docket, so I wanted to say that. We are  
19 trying to make this experiment and see how it works.  
20 Everything here is continued to March 4, a month from  
21 today, because we can't continue it to February 18  
22 because this is a constant docket, as you all know.  
23 We have to work with the whole issue. At this point,  
24 are there any continuances and dismissals?

25 MS. MUNDS-DRY: Mr. Examiner, on page
