Gentlemen:

We propose to drill a Morrow test at the location indicated in the above reference. A physical check of the West half of Section 7, T-22-S, R-27-E will reveal that the possible well locations are very limited within the 320 acres due to the existing terrain, buildings, dwellings, and public and private roads. We have carefully examined the acreage to be dedicated to the well and have come to the conclusion that the above proposed location is the only feasible location on the lease.

We are enclosing a copy of the Well Location and Acreage Dedication Plat for your ready reference.

In the event you have no objections to this unorthodox location, it would be appreciated if you would so indicate in the space provided below. Your signature will serve as your waiver to any objection to this location.

Please return one signed copy of this letter to us for our future handling. We are enclosing a stamped, addressed envelope for your convenience.

Anything done to expedite the handling of this request will be appreciated.
