- 1. I am a landman for Cimarex Energy Co., and have personal knowledge of the matters stated herein.
- 2. Pursuant to Division Rule NMAC 19.15.4.12.A(1)(b), the following information is submitted in support of the application filed herein:
  - (a) No opposition to this application is expected because the mineral interest owners being pooled have simply not responded to well proposals or have not yet executed an operating agreement.
  - (b) A plat outlining the spacing unit being pooled is attached hereto as Exhibit A. Applicant seeks an order approving a 160-acre non-standard oil spacing and proration unit (project area) in the Bone Spring formation comprised of the N/2N/2 of Section 35, Township 19 South, Range 34 East, NMPM. Applicant further seeks the pooling of all mineral interests (i) from the surface to the top of the Bone Spring formation underlying the NE/4NE/4 of Section 35 to form a standard 40 acre oil spacing and proration unit, and (ii) the Bone Spring formation underlying the N/2N/2 of Section 35 to form a non-standard 160 acre oil spacing and proration unit (project area). The units are to be dedicated to the Mallon 35 Fed. Well No. 7, a horizontal well to be drilled at a surface location 660 feet from the north line and 330 feet from the east line, with a terminus 660 feet from the north line and 330 feet from the west line, of Section 35.

Re: New Well Proposal-Mallon 35 Federal No. 7 160-acre spacing unit (N/2N/2) Section 35-T19S-R34E Lea County, New Mexico

Dear Working Interest Owner:

Cimarex Energy Co. ("Cimarex"), on behalf of its wholly-owned subsidiary Magnum Hunter Production, Inc., proposes to drill the above-captioned well according to the project described in the enclosed Authorization for Expenditure ("AFE"). If you would like to participate in the drilling of the well, please sign, date and return one (1) copy of the AFE to the undersigned at the above-letterhead address. Also enclosed, for your review, is Cimarex' proposed form of Operating Agreement. A separate Operating Agreement of identical form will cover the spacing or proration unit dedicated to each individual well proposed herein.

Alternatively, if you do not want to participate, Cimarex would be interested in acquiring a farmout of your working interest in the spacing or proration unit dedicated to the well. Cimarex would request delivery of a 75% net revenue interest lease, one (1) year primary term in which to spud an initial well and 180-day continuous development thereafter. Please contact me at your earliest convenience at (432) 571-7856 so that Cimarex can prepare accordingly. Thank you.

Sincerely,

Cimarex Energy Co.

Lea County, NM

Gentlemen:

Reference is made to your letters dated December 10, 2009 and received December 18<sup>th</sup>, 2009 by certified mail. Your proposal is problematic for several reasons.

It is not clear whether you are proposing under the existing Joint Operating Agreement (JOA) or under the unexecuted JOA that was included and referenced in your correspondence by even date. As the operator of the existing production in the lands and leases, it would seem that if Cimarex Energy Company (Cimarex) were interested in executing a new operating agreement or amending an existing JOA with the original partners in the existing wells within the leasehold estate, that business should precede proposal of the referenced wells. Since Cimarex has, by the referenced letters proposed these wells, the drilling of those wells will be governed by the existing JOA to the extent authorized. Execution of the attached JOA without clarification/ratification or abandonment of the existing JOA will certainly create a conflict between JOAs.

We object if Cimarex intends to drill the proposed four wells under an existing JOA as proposed. We do not believe that it is prudent to prosecute the drilling of four horizontal wells in a single section within the time constraints required under a single JOA with four proposals of even dates. None of these lands are in jeopardy of expiration nor are they being drained.

If there is no clear operating agreement embracing these lands, or any portion thereof, covering these proposals, or if a conflict exists between existing operating agreements, then these proposals being made are anticipating a forced pooling of the interests herein referenced. Those interests subject to the original JOA must have proper proposal/notification and the interests pooled must be so identified separately. We object to having our interest included in a forced pooling if it is subject to an existing JOA.

By this letter Fuel Products, Inc. and Pear Resources (FPI & PR) hereby request that Cimarex withdraw all of its proposals to FPI & PR until such clarification can be provided to FPI & PR in said lands. This will insure the validity of the proposals as to the interests in said wells. Failing in that action, Fuel Products, Inc. and Pear Resources, Inc. conditionally accept your proposal for drilling the captioned wells but subject to such clarification and the execution of all required documents necessary to satisfy the aforementioned exceptions.
