Santa Fe, NM 87505

**HAND DELIVERED**

**Re: NMOCD Case Nos. 14455, 14456 and 14457; Application of COG  
Operating LLC to Conduct Injection Operations for Evaluation for Secondary  
Recovery Operations, Eddy County, New Mexico**

Dear Mr. Jones:

At the April 1, 2010 hearing on the above Applications, it was noted that a number of the wellbore diagram exhibits may have incomplete information with respect to, among other matters, the tops of cement and plug-back depths. Mr. Prentice has reviewed the diagrams that were submitted and has provided revised wellbore diagrams in the vicinities of each of the proposed injection wells. Some of these include new TOC information, as indicated. Copies of these materials are included and we ask that these materials be included in the Division's case files for these Applications.

If additional information is needed, please do not hesitate to contact me.

Very truly yours,

J. Scott Hall
