Case # 14471*

Dear Ocean

The order says 90 days from completion. I do not think you have one year from the order date if, as you indicate, you completed sooner than the one year you have for completion.

However, I am aware of no reason not to extend this time. Therefore, please consider this email as approval to extend the date provided in Ordering Paragraph 10 of Order R-13292 for an additional 90 days. I will have this email scanned into the case file

**Importance:** High

David and Terry: Will you take a look at ordering paragraph 10? I assume this means for completion of the well (although it refers to recompletion). But my question really relates to the time frame for reporting costs. McElvain does not know all its costs yet and 90 days from completion is today. Do you agree that they have a year from the order date to submit the actual well costs to parties and the Division? I just want to make sure we don't need to ask for some sort of an extension today.

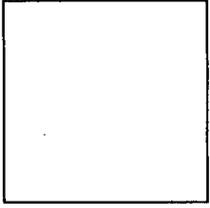

Thanks,  
Ocean
