From: Brooks, David K., EMNRD [mailto:david.brooks@state.nm.us] Sent: Tuesday, November 23, 2010 11:26 AM To: Deana Weaver Subject: K2 State #1 - NSL Application

Dear Ms. Weaver

I have in hand the referenced application.

Because this is a directional well, and the bottom hole location is standard, I will need to know the footage location of the "penetration point," that is, the point where the wellbore will intersect the top of the San Andres.

NSL approvals are not required for surface locations. If the penetration point is non-standard, however, NSL approval is required .

Sincerely

David K. Brooks Legal Examiner
