Re: Objection to proposed well K2 Federal, Section 36, T9S-R29E

Dear NMOCD Representative:

On November 29th, we received notice from Mack Energy Corporation of their intent to drill an unorthodox San Andres well, to be called the K2 State #1 (letter attached). In this letter we are given a 20 day period in which we, as lease holders on the adjacent acreage in Section 36, T9S-R30E, are given the option to present an objection to the proposed location. We received the notice via certified mail (#7009 2820 0004 4193 0454) on Monday, November 29, 2010.

My present communication is to present our objection to the proposed location. Said location impinges on WesPac Energy's interest in realizing production from the targeted horizon within the confines of our leasehold.

Sincerely,

Pat Ford

Should your company have any objection, it must be filed in writing within twenty (20) days from the date of this notice. The Division Director may approve the unorthodox location if no objection to the unorthodox location has been made within the 20 days after the application has been received.
