## MEWBOURNE'S STATEMENT OF THE CASE

Mewbourne Oil Company seeks an order approving an 80-acre non-standard oil spacing and proration unit (project area) in the Yeso formation comprised of the N12NW14 of Section 10, Township 20 South, Range 25 East, NMPM. Applicant further seeks the pooling of all mineral interests (i) from the surface to the top of the Yeso formation underlying the NW14NW14 of Section 10 to form a standard 40 acre oil spacing and proration unit, and (ii) the Yeso formation underlying the N12NW14 of Section 10 to form a non-standard 80 acre oil spacing and proration unit (project area), for all pools or formations developed on 40 acre spacing within that vertical extent. The units are to be dedicated to the Long Draw 10 DC Fed. Well No. 1, a horizontal well with a surface location in the NE14NE14 of offsetting Section 9, and a terminus in the NE14N W14 of Section 10. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The units are located approximately 3 miles west of Seven Rivers, New Mexico.

## PROPOSED EVIDENCE

### APPLICANT

WITNESSES	EST. TIME	EST. EXHIBIT
Corey Mitchell (Landman)	15 min	@ 8
Bryan Montgomery (engineer)	(pending)	
Jason Lodge (geologist)	(pending)	

## PROCEDURAL MATTERS

None anticipated at this time.
