Case 14565

Florene Davidson  
Oil Conservation Division  
1220 South St. Francis Drive  
Santa Fe, New Mexico 87505

Dear Florene:

Enclosed for filing, on behalf of Mewbourne Oil Company, are an original and one copy of an application for compulsory pooling, *etc.*, together with a proposed advertisement. The advertisement has also been e-mailed to the Division. Please set the application for the November 18, 2010 Examiner hearing. Thank you.

Very truly yours,

James Bruce

Attorney for Mewbourne Oil Company

**BEFORE THE NEW MEXICO OIL CONSERVATION DIVISION**

**APPLICATION OF MEWBOURNE OIL COMPANY  
FOR A NON-STANDARD OIL SPACING AND  
PRORATION UNIT AND COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO.**

RECEIVED OGD

Case No. 14565

**APPLICATION**

Mewbourne Oil Company applies for an order (i) approving a non-standard oil spacing and proration unit in the Yeso formation comprised of the N $\frac{1}{2}$ NW $\frac{1}{4}$  of Section 10, Township 20 South, Range 25 East, N.M.P.M., Eddy County, New Mexico, and (ii) pooling all mineral interests from the surface to the top of the Yeso formation underlying the NW $\frac{1}{4}$ NW $\frac{1}{4}$  of Section 10, and the Yeso formation underlying the non-standard unit, and in support thereof, states:

1. Applicant is an interest owner in the N $\frac{1}{2}$ NW $\frac{1}{4}$  of Section 10, and has the right to drill a well thereon.
2. Applicant proposes to drill its Long Draw 10 DC Fed. Well No. 1 to a depth sufficient to test the Yeso formation. Applicant seeks to dedicate (i) the NW $\frac{1}{4}$ NW $\frac{1}{4}$  of Section 10 to the well to form a standard 40 acre oil spacing and proration unit, and (ii) the N $\frac{1}{2}$ NW $\frac{1}{4}$  of Section 10 to the well to form a non-standard 80 acre oil spacing and proration unit (project area), for all pools or formations developed on 40 acre spacing. The well is a horizontal well, with a surface location in the NE $\frac{1}{4}$ NE $\frac{1}{4}$  of Section 9, and a terminus in the NE $\frac{1}{4}$ NW $\frac{1}{4}$  of Section 10.
3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the N $\frac{1}{2}$ NW $\frac{1}{4}$  of Section 10 for the purposes set forth herein.
4. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests.

Therefore, applicant seeks an order pooling all mineral interest owners in the N½NW¼ of Section 10, pursuant to NMSA 1978 §§70-2-17, 18.

5. Approval of the non-standard unit and the pooling of all mineral interests underlying the N½NW¼ of Section 10 will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

**WHEREFORE**, applicant requests that, after notice and hearing, the Division enter its order:

- A. Approving a non-standard oil spacing and proration unit (project area) in the Yeso formation comprised of the N½NW¼ of Section 10;
- B. Pooling all mineral interests from the surface to the top of the Yeso formation underlying the NW¼NW¼ of Section 10, and the Yeso formation in the N½NW¼ of Section 10;
- C. Designating applicant as operator of the well;
- D. Considering the cost of drilling and completing the well, and allocating the cost among the well's working interest owners;
- E. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- F. Setting a 200% charge for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

James Bruce

PROPOSED ADVERTISEMENT

Case No. 14565 :

***Application of Mewbourne Company for approval of a non-standard oil spacing and proration unit and compulsory pooling, Eddy County, New Mexico.*** Mewbourne Oil Company seeks an order approving an 80-acre non-standard oil spacing and proration unit (project area) in the Yeso formation comprised of the N/2NW/4 of Section 10, Township 20 South, Range 25 East, NMPM. Applicant further seeks the pooling of all mineral interests (i) from the surface to the top of the Yeso formation underlying the NW/4NW/4 of Section 10 to form a standard 40 acre oil spacing and proration unit, and (ii) the Yeso formation underlying the N/2NW/4 of Section 10 to form a non-standard 80 acre oil spacing and proration unit (project area), for all pools or formations developed on 40 acre spacing within that vertical extent. The units are to be dedicated to the Long Draw 10 DC Fed. Well No. 1, a horizontal well with a surface location in the NE/4NE/4 of offsetting Section 9, and a terminus in the NE/4NW/4 of Section 10. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The units are located approximately 3 miles west of Seven Rivers, New Mexico.
