Ladies and Gentlemen:

This letter is to advise you that ConocoPhillips Company and Burlington Resources Oil & Gas Company, LP have filed the enclosed application with the New Mexico Oil Conservation Division seeking an order reopening Cases 11601, 11626, 11627, 11628, 11629, 11708, 11709, 11685, 12136 and 11815 to amend the Division orders entered therein to permit the allocation of production in commingled wells by any method approved by the Division prior to commingling, Rio Arriba and San Juan Counties, New Mexico. These Units are located in Townships 27, 28, 29, 30 and 32 North, Ranges 5, 6, 7, and 9 West, N.M.P.M., Rio Arriba and San Juan Counties, New Mexico.

This application has been set for hearing before a Division Examiner at 8:15 AM on September 30, 2010. The Hearing will be held in Porter Hall in the Oil Conservation Division's Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging this matter at a later date.

11629, 11708, 11709, 11685,  
12136 AND 11815  
(REOPENED)

APPLICATION

CONOCOPHILLIPS COMPANY and BURLINGTON RESOURCES OIL & GAS COMPANY, LP (hereinafter referred to as ConocoPhillips/ Burlington), through their undersigned attorneys, hereby make application for orders amending certain Oil Conservation Division orders that approved voluntary units which ConocoPhillips operates in Rio Arriba and San Juan Counties, New Mexico, to permit the allocation of downhole commingled production in wellbores by alternative methods approved by the Division prior to commingling and in support of its application states:

I. ConocoPhillips/Burlington operate certain voluntary units in Rio Arriba and San Juan Counties that were approved by the following Division orders:

- A. Order No. R-10692 (Case No. 11601) San Juan Unit 32-9 Unit;
- B. Order No. R-10694 (Case No. 11626) San Juan Unit 27-5 Unit;
- C. Order No. R-10695 (Case No. 11627) San Juan Unit 28-5 Unit;
- D. Order No. R-10696 (Case No. 11628) San Juan Unit 28-6 Unit;
- E. Order No. R-10697 (Case No. 11629) San Juan Unit 29-7 Unit;
- F. Order No. R-10707 (Case No. 11708) San Juan Unit 29-5 Unit;
- G. Order No. R-10771 (Case No. 11709) San Juan Unit 30-5 Unit
- H. Order No. R-10786 (Case No. 11685) Canyon Largo Unit;
- I. Order No. R-10476-B (Case No. 11815) San Juan 28-7 Unit; and
- J. Order No. R-11187 (Case No. 12136) San Juan Unit 29-6 Unit.

These units are hereinafter collectively referred to as the "Unit Approval Orders."

2. Each of the Unit Approval Orders authorizes the allocation of commingled production by either the subtraction or fixed allocation method.

3. The allocation of production in certain new commingled wells by the use of a gas composition analysis has been approved by the Division but the Unit Approval Orders that limit allocation to the subtraction and fixed allocation methods may prevent its use.

4. ConocoPhillips therefore seeks amendment of each of the Unit Approval Orders by the addition of a finding that provides: "Nothing in this order shall prevent the use of alternative methods for the allocation of commingled production where the method has been or subsequently is approved by the Division prior to commingling."

5. The proposed amendment of each of the Unit Approval Orders is in the interest of conservation, the prevention of waste and protection of correlative rights and should be approved.

WHEREFORE, ConocoPhillips Company and Burlington Resources Oil & Gas Company LP request that this application be set for hearing before an Examiner of the Oil Conservation Division on September 30, 2010, that notice be given as required by law and the rules of the Division, and that this application be granted.

Respectfully submitted,
