Re: NW/4 Section 2, T-17-S, R-38-E,
Lea County, New Mexico

Dear Sir:

As discussed with you by telephone, I am on the New Mexico Oil Conservation Division docket for November 23, 1982. The purpose of this hearing is to secure an exception to the spacing rules of the Knowles Pool in Lea County, New Mexico and for a "force pooling" order as to unleased mineral interests. I want you to be aware since Southland Royalty owns an unleased 7/32 mineral interest and may wish to attend.

Petroleum Geologist

Yours very truly,

11-15-82 Mrs. Lawrence says this place in cultivation cotton, peanuts, wheat etc. Deal w/ her! She wanted me to read off min. owners - I did she knew Jordan (dead) & the (Myrick) Blocker in Hobbs. Told her we were checking on things - might or might not & I would call her later if we needed to go on w/ this.

11-15-82 WRT Jordan - told him the whole story geology & lease situation & that deal could fall thru - hearing fall. He says he will either lease on my letter terms or join & so will Dick.

Re: NW/4 Sec. 2 T-17-S, R-38-E
Lea County, New Mexico

Dear Mr. Jordan,

In March of last year you were contacted for my account by George Hamblin of Midland, Texas, regarding an oil and gas lease on your 1/32 mineral interest under the above. At that time you indicated that if and when a well were planned you would then decide whether to lease, or join for your share.

In order to further plans for drilling a Devonian well on this tract we are seeking a hearing before the Oil Conservation Commission of New Mexico. The hearing will decide our request for an exception to the spacing rules for the Knowles field; also our request for a force pooling order which we may utilize in the event we are unable to secure an acceptable trade with undivided mineral interest owners such as yourself.

Please advise me as to your current attitude. We now offer \$75 per mineral acre bonus for a 3 year lease, 3/16 royalty. Your attention and reply will be appreciated.

Yours truly,

W.C. Tillet

Dear Sir,

In reply to your letter of March 17, 1981,
I am not interested in leasing these minerals
at this time under the terms you have
proposed. At a later date, if you propose to
drill, send me an authorized field expenditure
estimate for the drilling and of a well at what
location you propose and at what depth, and at
that time I will make a decision.

Sincerely yours,
Lawrence J. Dick
