**STATEMENT OF THE CASE**

Mewbourne Oil Company seeks an order creating a non-standard spacing unit comprised of the W/2 SW/4 of Section 13, Township 19 South, Range 25 East, NMPM, and pooling all mineral interests in the Yeso formation, North Seven Rivers-Glorieta-Yeso Pool, in this non-standard spacing and proration unit which spacing unit will be the project area for the Wyatt Draw "13" ML No. 1-H Well which it proposes to drill as a horizontal oil well from a non-standard surface location 250 feet from the North line and 350 feet from the West line of Section 24, and then in a northerly direction in the Yeso formation to a bottom hole terminus at a point 2310 feet the South line and 350 feet from the West line of said Section 13. This well will penetrate the Yeso formation at an unorthodox location 250 feet from the North line and 350 feet from the West line of Section 24, however, the producing interval in the wellbore is within the well's "producing area." Also to be considered will be the cost of drilling and completing the well and the allocation of the costs thereof as well as actual operating costs and charges for supervision, designation of Mewbourne Oil Company as operator of the well and a charge for risk involved in drilling said well.

**PROPOSED EVIDENCE**

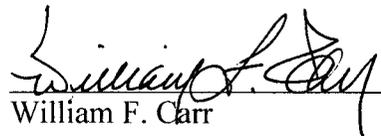

**APPLICANT**

<b><u>WITNESS</u></b>	<b><u>TIME</u></b>	<b><u>EXHIBITS</u></b>
Corey Mitchell Landman	15 minutes	Approx. 6
Jason Lodge Geologist Or other geological witness	10 minutes	Approx. 4

**PROCEDURAL MATTERS**

None at this time.

Respectfully submitted,

William F. Carr  
ATTORNEY FOR MEWBOURNE  
OIL COMPANY
