Re: Plugging of Mobil-32 Well No. 1,
Unit D, Sec. 32, T-25-S, R-1-E,
Dona Ana County, New Mexico

Dear Mr. Grimm:

I am writing to inform you of the necessity that you immediately initiate action to plug the referenced well, which our records indicate was completed at a depth of over 20,000 feet. A hearing was held on this matter in February, 1983, in Case No. 7747, and the Commission, in Order No. R-7226, (a copy of which is enclosed) required the well to be plugged and abandoned in accordance with an approved plugging plan. Copies of the Notice of Hearing and the final order were mailed to you and other record owners of the well.

Please be advised that this letter constitutes official notice that if action to plug this well is not taken within thirty days, the Oil Conservation Division will institute legal proceedings against the responsible parties. If this becomes necessary, your ability to undertake future operations in this state may be jeopardized.

If you have any questions regarding this matter, you may contact either myself, at (505) 827-5805, or Mr. Les Clements, Artesia District Supervisor, at (505) 748-1283.

Sincerely,

JEFFERY TAYLOR
Legal Counsel
