**Subject:** Cases 14638 and 14639; Applications of OGX for Compulsory Pooling etc

Dear Jim

In looking at these cases, I cannot find in any of the exhibits, or in my notes, the footage locations of the penetration point for these wells. I do not know if this information is in the transcripts, as we have not received the transcripts yet.

If you can supply the information concerning the penetration points, I can proceed with preparation of orders without the transcripts.

Sincerely

David Brooks
