Re: Request of Bass Enterprises Production Company  
for Extension of Date for Commencement of  
Drilling Pursuant to Compulsory Pooling  
Order R-10230, Case 11048  
Remuda Basin "30" State Comm Well No. 1  
S/2 Sec 30, T23S, R30E, NMPM  
Eddy County, New Mexico

Dear Mr. LeMay:

On behalf of Bass Enterprises Production Company, and in accordance with the provisions of the referenced order (copy enclosed), I am requesting a 60-day extension to the commencement date of the subject well and in support state:

(1) The order was entered effective August 4, 1994 and provides that the drilling of the subject well shall be commenced on or before December 31, 1994;

William J. LeMay  
December 12, 1994  
Page 2.

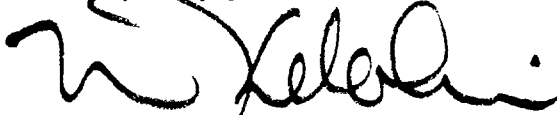

(2) The subject well is proposed to be drilled as a drainage protection well to protect the S/2 of said Section 30 from drainage by a Maralo, Inc. well currently being tested in the N/2 of said Section 30;

(3) Bass desires to await the results of the Maralo well before commencing to drill the subject well;

(4) The current compulsory pooling order, unless extended, will expire before Bass can obtain and evaluate data from the Maralo well;

(5) An extension of the commencement date for the subject well until February 28, 1995 will provide the opportunity to obtain and evaluate that data.

Very truly yours,

IN THE MATTER OF THE HEARING  
CALLED BY THE OIL CONSERVATION  
DIVISION FOR THE PURPOSE OF  
CONSIDERING:

*CASE NO. 11048  
ORDER NO. R-10230*

**APPLICATION OF BASS ENTERPRISES PRODUCTION COMPANY FOR  
COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.**

ORDER OF THE DIVISION

BY THE DIVISION:

This cause came on for hearing at 8:15 a.m. on August 4, 1994 at Santa Fe, New Mexico, before Examiner Michael E. Stogner.

NOW, on this 3rd day of November, 1994, the Division Director, having considered the testimony, the record and the recommendations of the Examiner, and being fully advised in the premises,

FINDS THAT:

- (1) Due public notice having been given as required by law, the Division has jurisdiction of this cause and the subject matter thereof.
- (2) The applicant, Bass Enterprises Production Company, seeks an order pooling all mineral interests from the top of the Wolfcamp formation to the base of the Morrow formation underlying Lots 3 and 4, the E/2 SW/4, and the SE/4 (S/2 equivalent) of Section 30, Township 23 South, Range 30 East, NMPM, Eddy County, New Mexico, thereby forming a 320.88-acre gas spacing and proration unit for any and all formations and/or pools developed on 320-acre spacing within said vertical extent, which presently includes but is not necessarily limited to the Undesignated Nash Draw-Strawn Gas Pool and the Undesignated Nash Draw-Atoka Gas Pool and dedicating said unit to its proposed Remuda Basin "30" State Comm. Well No. 1 to be drilled at a standard gas well location thereon.
- (3) The applicant is an interest owner in the S/2 equivalent of said Section 30 and as such has the right to drill for and develop the minerals underlying the proposed spacing unit.

(4) According to the evidence presented at the hearing the applicant proposes to drill said Remuda Basin "30" State Comm. Well No. 1 at a standard gas well location 1980 feet from the South and West lines (Unit K) of said Section 30.

(5) There are other owners of mineral interest in the proposed proration unit who have not agreed to pool their interests.

(6) At the time of the hearing Maralo, Inc., Texaco Exploration and Production, Inc., and Santa Fe Energy Operating Partners, L. P., all owners of certain mineral interests in the proposed unit, entered appearances through legal counsel.

(7) To avoid the drilling of unnecessary wells, to protect correlative rights, to prevent waste and to afford to the owner of each interest in said unit the opportunity to recover or receive without unnecessary expense his just and fair share of the gas in any pool resulting from this order, the subject application should be approved by pooling all mineral interests, whatever they may be, within said unit.

(8) Bass Enterprises Production Company should be designated the operator of the subject well and unit.

(9) Any non-consenting working interest owner should be afforded the opportunity to pay his share of estimated well costs to the operator in lieu of paying his share of reasonable well costs out of production.

(10) Any non-consenting working interest owner who does not pay his share of estimated well costs should have withheld from production his share of reasonable well costs plus an additional 200 percent thereof as a reasonable charge for the risk involved in the drilling of the well.

(11) Any non-consenting interest owner should be afforded the opportunity to object to the actual well costs but actual well costs should be adopted as the reasonable well costs in the absence of such objection.

(12) Following determination of reasonable well costs, any non-consenting working interest owner who has paid his share of estimated costs should pay to the operator any amount that reasonable well costs exceed estimated well costs and should receive from the operator any amount that paid estimated well costs exceed reasonable well costs.

(13) \$ 6,000.00 per month while drilling and \$ 600.00 per month while producing should be fixed as reasonable charges for supervision (combined fixed rates); the operator should be authorized to withhold from production the proportionate share of such supervision charges attributable to each non-consenting working interest, and in addition thereto, the operator should be authorized to withhold from production the proportionate share of actual expenditures required for operating the subject well, not in excess of what are reasonable, attributable to each non-consenting working interest.

(14) All proceeds from production from the subject well which are not disbursed for any reason should be placed in escrow to be paid to the true owner thereof upon demand and proof of ownership.

(15) Upon the failure of the operator of said pooled unit to commence drilling of the well to which said unit is dedicated on or before December 31, 1994, the order pooling said unit should become null and void and of no further effect whatsoever.

(16) Should all the parties to this force-pooling reach voluntary agreement subsequent to entry of this order, this order should thereafter be of no further effect.

(17) The operator of the well and unit should notify the Director of the Division in writing of the subsequent voluntary agreement of all parties subject to the force-pooling provisions of this order.

**IT IS THEREFORE ORDERED THAT:**

(1) All mineral interests, whatever they may be, from the top of the Wolfcamp formation to the base of the Morrow formation underlying Lots 3 and 4, the E/2 SW/4, and SE/4 (S/2 equivalent) of Section 30, Township 23 South, Range 30 East, NMPM, Eddy County, New Mexico, are hereby pooled to form a 320.88-acre gas spacing and proration unit for any and all formations and/or pools developed on 320-acre spacing within said vertical extent, which presently includes but is not necessarily limited to the Undesignated Nash Draw-Strawn Gas Pool and the Undesignated Nash Draw-Atoka Gas Pool. Said unit is to be dedicated to the applicant's proposed Remuda Basin "30" State Comm. Well No. 1 to be drilled at a standard gas well location 1980 feet from the South and West lines (Unit K) of said Section 30.

**PROVIDED HOWEVER THAT,** the operator of said unit shall commence the drilling of said well on or before the thirty first day of December, 1994, and shall thereafter continue the drilling of said well with due diligence to a depth sufficient to test from the top of the Wolfcamp formation to the base of the Morrow formation.

PROVIDED FURTHER THAT, in the event said operator does not commence the drilling of said well on or before the thirty-first day of December, 1994, Decretory Paragraph No. (1) of this order shall be null and void and of no effect whatsoever, unless said operator obtains a time extension from the Division for good cause shown.

PROVIDED FURTHER THAT, should said well not be drilled to completion, or abandonment, within 120 days after commencement thereof, said operator shall appear before the Division Director and show cause why Decretory Paragraph No. (1) of this order should not be rescinded.

(2) Bass Enterprises Production Company is hereby designated the operator of the subject well and unit.

(3) After the effective date of this order and within 90 days prior to commencing said well, the operator shall furnish the Division and each known working interest owner in the subject unit an itemized schedule of estimated well costs.

(4) Within 30 days from the date the schedule of estimated well costs is furnished to him, any non-consenting working interest owner shall have the right to pay his share of estimated well costs to the operator in lieu of paying his share of reasonable well costs out of production, and any such owner who pays his share of estimated well costs as provided above shall remain liable for operating costs but shall not be liable for risk charges.

(5) The operator shall furnish the Division and each known working interest owner an itemized schedule of actual well costs within 90 days following completion of the well; if no objection to the actual well costs is received by the Division and the Division has not objected within 45 days following receipt of said schedule, the actual well costs shall be the reasonable well costs; provided however, if there is an objection to actual well costs within said 45-day period the Division will determine reasonable well costs after public notice and hearing.

(6) Within 60 days following determination of reasonable well costs, any non-consenting working interest owner who has paid his share of estimated costs in advance as provided above shall pay to the operator his pro rata share of the amount that reasonable well costs exceed estimated well costs and shall receive from the operator his pro rata share of the amount that estimated well costs exceed reasonable well costs.

(7) The operator is hereby authorized to withhold the following costs and charges from production:

- (a) The pro rata share of reasonable well costs attributable to each non-consenting working interest owner who has not paid his share of estimated well costs within 30 days from the date the schedule of estimated well costs is furnished to him; and
- (b) As a charge for the risk involved in the drilling of the well, 200 percent of the pro rata share of reasonable well costs attributable to each non-consenting working interest owner who has not paid his share of estimated well costs within 30 days from the date the schedule of estimated well costs is furnished to him.

(8) The operator shall distribute said costs and charges withheld from production to the parties who advanced the well costs.

(9) \$ 6,000.00 per month while drilling and \$ 600.00 per month while producing are hereby fixed as reasonable charges for supervision (combined fixed rates); the operator is hereby authorized to withhold from production the proportionate share of such supervision charges attributable to each non-consenting working interest, and in addition thereto, the operator is hereby authorized to withhold from production the proportionate share of actual expenditures required for operating such well, not in excess of what are reasonable, attributable to each non-consenting working interest.

(10) Any unleased mineral interest shall be considered a seven-eighths (7/8) working interest and a one-eighth (1/8) royalty interest for the purpose of allocating costs and charges under the terms of this order.

(11) Any well costs or charges which are to be paid out of production shall be withheld only from the working interest's share of production, and no costs or charges shall be withheld from production attributable to royalty interests.

(12) All proceeds from production from the subject well which are not disbursed for any reason shall be placed in escrow in Eddy County, New Mexico, to be paid to the true owner thereof upon demand and proof of ownership; the operator shall notify the Division of the name and address of said escrow agent within 30 days from the date of first deposit with said escrow agent.

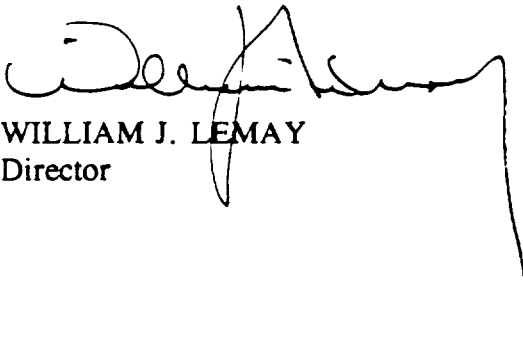

(13) Should all the parties to this force-pooling reach voluntary agreement subsequent to entry of this order, this order shall thereafter be of no further effect.

(14) The operator of the subject well and unit shall notify the Director of the Division in writing of the subsequent voluntary agreement of all parties subject to the force-pooling provisions of this order.

(15) Jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.
