Re: Shipp 15 #1
N/2 SE/4 Section 15-17S-37E
Lea County, New Mexico
Humble City Prospect / P2345

Dear Mr. Twombly:

Bonneville Fuels has advised that American West Oil & Gas Corporation will be assigned a portion of the interest that they acquired in the N/2 SE/4 of Section 15-17S-37E, Lea County, New Mexico. AnSon has previously been corresponding with Bonneville concerning the interest owned within this unit. Prior to being notified by Bonneville that a portion of their interest would be assigned to you, AnSon initiated force pooling proceedings and a hearing is now scheduled for mid-November. AnSon invites your participation in our proposed test, or in the alternative, would like to purchase your leasehold interest under one (1) of the following options:

- 1) Participate with your proportionate working interest by executing and returning one (1) copy of the AFE, along with your proportionate share of completed well costs.
- 2) Sell your leasehold interest for \$125.00 per net acre delivering an 81.25% NRI.
- 3) Sell your leasehold interest for no bonus delivering a 75% NRI.

Inasmuch as no assignment has been made of record concerning your interest to date, Bonneville Fuels will remain as the only respondent on the pooling application, however you should be aware that this will affect your interest should you not make an election on or before the force pooling hearing date. If you have any questions or need additional information, please give me a call.

Sincerely,

AnSon Company

Dear Mr. Spelman:

AnSon Gas Corporation has acquired a farmout from PG&E Resources Company and the majority of the leasehold interest in the captioned unit. AnSon proposes to drill an 11,750' Strawn test at a legal location in said unit. Enclosed please find two (2) copies of AFE reflecting our estimated well costs. We plan to spud this test as soon as possible and we respectfully request that Bonneville advise as to its intentions at your earliest possible convenience. Although we have acquired top leases within this unit, we hope to spud our test before the base leases expire. I will be calling you in the next couple of days to follow-up on this letter.

If you have any questions or need additional information, please give me a call.

Lea County, New Mexico
Humble City Prospect / P2345

Dear Mr. Spelman:

Thank you for your telephone call this date concerning AnSon Gas Corporation's proposed well in the captioned unit. As we discussed, AnSon's staked location for this well is 2,130' FSL and 510' FEL Section 15. Enclosed for your review is a copy of our Operating Agreement covering this well, along with an extra signature page. Should you desire to participate in this test, please execute and return one (1) copy of the extra signature page to my attention at your earliest convenience.

As I advised, AnSon has acquired a majority of this unit and hopes to spud a well this month. We have come to agreement with all parties in this unit with the exception of Bonneville Fuels Corporation whom we have recently found out acquired a leasehold interest from Hickory Timbers Limited Partnership and Cross Timbers Production Company covering 4.444 net acres within this 80 acre unit.

If you have any questions, please give me a call. I appreciate your help and cooperation in expediting this proposal.

Re: ~~Shipp~~ 15 #1
N/2SE/4 Section 15-17S-37E
Lea County, New Mexico

Dear Mr. Lundeen:

We are in receipt of your recent letters transmitting an AFE and Operating Agreement for the above-captioned well, resulting from our acquisition of the Cross Timbers Lease.

We are currently subject to an Operating Agreement and Area of Mutual Interest covering these lands and additional lands in the area. Therefore, we are offering our partners (7) their proportionate share of this lease. We have asked for a prompt response and furnished them with copies of your letters.

At such time that we know the participation in the lease, we will advise you as to how the Exhibit A to the Operating Agreement should reflect the various interests. We will also furnish you with a copy of the assignment to our partners. We do not feel it is appropriate to sign the AFE until the Operating Agreement is in place.

If you have any questions, please give me a call.

Yours truly,

Humble City Prospect / P2345

Dear Mr. Twombly:

Bonneville Fuels has advised that American West Oil & Gas Corporation will be assigned a portion of the interest that they acquired in the N/2 SE/4 of Section 15-17S-37E, Lea County, New Mexico. AnSon has previously been corresponding with Bonneville concerning the interest owned within this unit. Prior to being notified by Bonneville that a portion of their interest would be assigned to you, AnSon initiated force pooling proceedings and a hearing is now scheduled for mid-November. AnSon invites your participation in our proposed test, or in the alternative, would like to purchase your leasehold interest under one (1) of the following options:

- 1) Participate with your proportionate working interest by executing and returning one (1) copy of the AFE, along with your proportionate share of completed well costs.
- 2) Sell your leasehold interest for \$125.00 per net acre delivering an 81.25% NRI.
- 3) Sell your leasehold interest for no bonus delivering a 75% NRI.

Inasmuch as no assignment has been made of record concerning your interest to date, Bonneville Fuels will remain as the only respondent on the pooling application, however you should be aware that this will affect your interest should you not make an election on or before the force pooling hearing date. If you have any questions or need additional information, please give me a call.

Sincerely,

AnSon Company

12. At any time commencing subsequent to (1) the lapse of one year after the end of the primary term or (2) one year after the completion of actual drilling of any well being drilled hereunder at the end of the primary term, whichever is later, upon the lapse of any period of one hundred twenty (120) successive days during which no actual drilling is conducted on the lease premises, this lease (if not sooner terminated) shall terminate and be released of legal record by Lessee as to all of the land covered hereby, SAVE AND EXCEPT THE DEVELOPED ACREAGE. The term "actual drilling" as used herein shall mean down hole operations for the purpose of obtaining production of oil or gas conducted with a rotary rig or its equivalent capable of expeditious drilling to a depth of at least 6,000 feet below the surface of the ground. For purposes hereof, only the following shall be deemed developed acreage:

(i) The minimum acreage (as nearly in the form of a square or rectangle as practicable) in a proration unit properly assigned to a completed well capable of producing oil or gas in commercial quantities to qualify such well for maximum proration allowable under law and governmental rules and regulations establishing applicable field rules. For purposes hereof, statewide rules shall not be regarded as field rules.

(ii) In the absence of field rules fixing the allowable production in relation to assigned acreage, each such proration unit shall contain the acreage assigned to each well capable of producing oil or gas in commercial quantities as follows: 40 acres or less for each oil well and 160 acres or less for each gas well.

(iii) All depths down to (but not greater than) 100 feet below the deepest depth at which a well has been completed capable of producing oil or gas in paying quantities in and as to each such respectively assigned proration unit.

13. All rights of Lessee hereunder are expressly understood and agreed to be in all respects subject to and inferior to all rights of lessee, its successors and assigns under and by virtue of that certain Oil and Gas Lease dated the _____ day of _____, 19____ between _____ and _____.

Re: Shipp 15 #1
N/2 SE/4 Section 15-17S-37E
Lea County, New Mexico
Humble City Prospect / P2345

Dear Mr. Douglas:

AnSon Gas Corporation proposes to drill an 11,750' Strawn/Atoka test at a location 510' FEL and 2,130' FSL of the SE/4 of Section 15-17S-37E, Lea County, New Mexico. AnSon Gas Corporation has acquired interest from all non-participating parties in this unit which will consist of the N/2 SE/4 of Section 15. I spoke with Miles Boldrick this morning and advised him that AnSon was of the assumption that 100% of this unit was either committed or was going to participate in our proposed test. Upon receipt of a Drilling Title Opinion, we discovered that Hillin-Simon Oil Company owned 7 net acres within this unit which we were unaware of. We have made location and settled surface damages and propose to drill this well within the next week or so. I apologize for the late notice and respectfully request that Hillin-Simon review our proposal and make an election as soon as possible so that we can go ahead and move our rig onto location.

Enclosed for your review please find two (2) copies of AFE reflecting estimated well costs for this test. Should you desire to participate, I will forward a copy of our Operating Agreement for your review. In the event you do not wish to participate in this test, AnSon would respectfully request that you sell your leasehold for \$75.00 per net mineral acre delivering a 75% NRI. As stated above, our records reflect that Hillin-Simon owns 7 net acres under a 1/4 royalty lease. If you have any questions or need additional information, please give me a call.

Very truly yours,

AnSon Gas Corporation

Lea County, New Mexico
Humble City Prospect / P2345

Dear Miles:

As we discussed on the telephone recently, AnSon Gas Corporation has a force pooling hearing scheduled for November 10, 1994 covering the captioned unit. Please be advised that AnSon has secured farmouts or leases covering over 83% of this unit. At this time we have given no backins and have accepted no less than a 75% NRI on leasehold. AnSon hereby offers to farmin Hillin-Simon's interest within this unit under the following terms:

- 1) Farmout your interest delivering a 75% NRI with the option at payout to acquire an 18.75% WI proportionately reduced with AnSon's net revenue remaining at 75% NRI.
- 2) Farmout your interest delivering a 74% NRI with the option at payout to convert 1% of your reserved override to a proportionately reduced 12.50% WI.

Any farmout would be on a produce-to-earn basis and would include all leasehold rights within the SE/4 of Section 15-17S-37E. If you have any questions or need additional information, please give me a call.

Sincerely,

AnSon Gas Corporation

Re: Application of AnSon Gas Corporation for Compulsory Pooling and an
Unorthodox Oil Well Location, Lea County, New Mexico

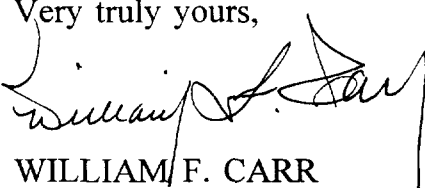

Gentlemen:

This letter is to advise you that AnSon Gas Corporation has filed the enclosed application with the New Mexico Oil Conservation Division seeking the force pooling of certain mineral interests in all formations to the base of the Atoka formation, in and under the N/2 SE/4 of Section 15, Township 17 South, Range 37 East, N.M.P.M., Lea County, New Mexico. AnSon Gas Corporation proposes to dedicate the referenced pooled unit to its Shipp 15 No. 1 Well to be drilled at an unorthodox well location 2130 feet from the South line and 510 feet from the East line of said Section 15.

This application has been set for hearing before a Division Examiner on October 27, 1994. You are not required to attend this hearing, but as an owner of an interest that may be subject to pooling or otherwise affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

WILLIAM F. CARR

Re: Application of AnSon Gas Corporation for Compulsory Pooling and an
Unorthodox Oil Well Location, Lea County, New Mexico

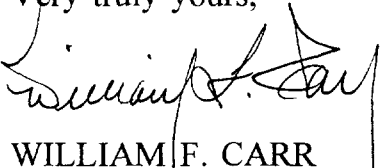

Gentlemen:

This letter is to advise you that AnSon Gas Corporation has filed the enclosed application with the New Mexico Oil Conservation Division seeking the force pooling of certain mineral interests in all formations to the base of the Atoka formation, in and under the N/2 SE/4 of Section 15, Township 17 South, Range 37 East, N.M.P.M., Lea County, New Mexico. AnSon Gas Corporation proposes to dedicate the referenced pooled unit to its Shipp 15 No. 1 Well to be drilled at an unorthodox well location 2130 feet from the South line and 510 feet from the East line of said Section 15.

This application has been set for hearing before a Division Examiner on October 27, 1994. You are not required to attend this hearing, but as an owner of an interest that may be subject to pooling or otherwise affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

WILLIAM F. CARR
