Dear Mr. Strickland

The last reported production for any of the referenced wells was for the month of July, 19 Allowables were cancelled at a later date for failure to file production reports. A field insp. conducted on 5-2-94 revealed that the wells are in a state of extreme neglect with gas and leaks on wellheads, fences down or in poor repair, stripped down or vandalized production equipment, oil stains from old stuffing box leaks, junk on locations and high dry weeds cor fire hazards.

In order to comply with Rule 201, prevent waste, protect fresh water and protect the envi. you are hereby directed to submit a plan to bring the wells into compliance and return ther production, or initiate division approved P&A procedures prior to July 4, 1994. Failure to will result in a case being called for Troy Strickland and EV Isabell DBA S&I Oil Co., Comm. Union Insurance and all other interested parties to appear and show cause why the subject should not be plugged and abandoned in accordance with division approved plugging prog.

Yours Truly
