Re: Application of Yates Petroleum Corporation for an Unorthodox Well Location
and Simultaneous Dedication, Eddy County, New Mexico

Gentlemen:

This letter is to advise you that Yates Petroleum Corporation has filed the enclosed application with the New Mexico Oil Conservation Division seeking approval of an unorthodox well for its Vandiver CN Com Well No. 2 to be drilled 1242 feet from the North line and 808 feet from the East line of Section 18, Township 18 South, Range 26 East. Yates also seeks authority to simultaneously dedicate the proposed Vandiver CN Com Well No. 2 and the existing Vandiver CN Com Well No. 1 to a standard 320-acre spacing unit in the Morrow formation, West Atoka-Morrow Gas Pool comprised of the N/2 of said Section 18.

This application has been set for hearing before a Division Examiner on December 15, 1994. You are not required to attend this hearing, but as an owner of an interest that may be affected by the unorthodox well location, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Very truly yours,
