Dear Mr. Wilson:

Enclosed is a copy of a July 6, 1994, letter to you from Jim Morrow, Acting Supervisor for New Mexico Oil Conservation Division District II, requesting that you inform the OCD by August 1, 1994, of your plans to plug the above-referenced well.

The OCD has not received such plans as of the above date and is therefore by this letter informing you of its intent to hold a "show cause" hearing directing you to show cause why an order should not be entered determining that the well should be plugged, directing the plugging bond you posted to be forfeited, and directing you to plug the well. If you do not plug the well and the OCD is required to do so, the OCD will seek to recover any monies expended in plugging the well from you through all available legal means.

If we do not hear from you by January 13, 1995, we will set this matter for the above-described show cause hearing.

Sincerely,

Rand Carroll  
Legal Counsel

Dear Mr. Wilson:

Your plugging operations on this well began in March of this year and were suspended when down hole problems were encountered. We were informed at that time that another operator planned to take over the well and either produce it or plug it. Since this has not happened, we request that you initiate operations to plug or repair the well. In its present condition it could be a threat to water and hydrocarbon resources in the area.

Please let us hear from you concerning your plans for the well by August 1, 1994. We will appreciate your cooperation.

Yours Truly,

  
Jim Morrow
