Gentlemen:

Following the discussions with Mr. Bullock and Beck, Enron Oil & Gas Company ("Enron") is agreeable to meeting with Yates Petroleum Corporation, et al ("Yates") on Wednesday, September 27th, to present Yates with a geological/geophysical presentation covering the location for the referenced well. At this presentation Enron will show Yates regional work of the Morrow depositional system. With this, one North-South and one East-West seismic line from Enron's 3-D seismic will be shown. This data will represent the data Enron relied upon to pick the above location.

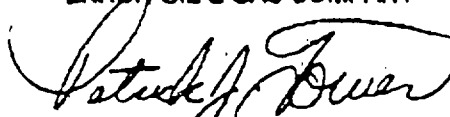

In return, Yates is agreeable to allow Enron to proceed with its Force Pooling Case on October 5, 1995 and will not raise any objection or make any request for continuance. In this regard Yates is agreeable to allow Bill Carr to represent Enron at said hearing. In addition, should Yates agree to participate in this test, Yates will become the Operator of this location and the 8/2 proration unit and will proceed to drill this well on or before December 1, 1995. If for some reason Yates does not elect to participate, then Enron will be the Operator and Yates will enter into a mutually agreeable farmout of its interest in the 8/2 of Section 12 proration unit to Enron to allow Enron to drill by December 1, 1995.

Enron has offered this technical review to all working interest owners in this proration unit; however, aside from the Yates Petroleum Corporation group, the remaining parties own only a small interest. These remaining parties have agreed to forego this review and rely on Yates Petroleum's final well election to determine their own well election.

If the above is a correct understanding of the verbal agreement between Enron and the Yates Group, please so indicate by signing in the space provided below.

Gentlemen:

Following the discussions with Ms. Darr, Enron Oil & Gas Company ("Enron") is agreeable to meeting with Harvey E. Dear Don:

Following our conversation please find a copy of the original well proposal which Enron sent Yates Energy who in turn advised they had forwarded on to your corporation.

Also please find a copy of the Force Pooling application concerning the above. Again, I believe Enron's attorney Bill Carr had previously forwarded this to your Corporation.

Should you have any questions, please call me at (915)686-3758.

Sincerely,

Dear Ms. Dooley:

Enron Oil & Gas Company has been trying to locate Paula Dooley, Personal Representative of the William P. Dooley Estate in connection with the proposed drilling of the captioned well. Her election letter addressed to Box G, Artesia, New Mexico 88210 has been returned to us unclaimed. Also the return receipt card came back later after the Post Office forwarded it to P O. Box 270. This card was signed by a Tammy Rhodes, however she must not have accepted the paperwork and envelope we sent.

Since we thought you might possibly represent her or you could get this information to her we are enclosing her letters along with a copy of the unclaimed envelope. Any help you could give us in this matter would be greatly appreciated.

Thanks, again.

Sincerely,

Dear Mr. Tower:

We have received your letter of August 17, 1995, proposing the drilling of the captioned well. As to the interest allocated to Yates Energy Corporation, please be advised that effective September 10, 1993 we conveyed a 32.2899% interest in all properties owned by Yates Energy to Jalapeno Corporation. The Conveyance and Bill of Sale was recorded in Book 167 at Page 247 in the Eddy County Records. We are sending Jalapeno Corporation a copy of your well proposal, but request that you add their name to your working interest owner address list. We are in the process of preparing the federal assignment forms into Jalapeno Corporation, and will provide you copies in the near future.

Yates Energy is currently evaluating your well proposal, and will respond in the near future. Your assistance in this request is appreciated.

Yours very truly,

Gentlemen:

Enron Oil & Gas Company hereby proposes the drilling of an 11,860' Morrow test as set forth on the attached AFE. The S/2 of Section 12, T18S-R29E will be dedicated as the proration unit. If you elect to participate in the drilling of this well, please execute, date and return one (1) copy of this letter and one (1) AFE to the undersigned.

In the event your company is not inclined to participate in this test, Enron would be willing to entertain a Farmout from your company based on your delivering Enron an 80% net revenue interest with the overriding royalty convertible to a 20% backin, all proportionately reduced to your leasehold and interest in this proration unit.

Should you elect to participate, Enron will prepare a Joint Operating Agreement and forward same for your approval.

Your prompt response will be most appreciated, as Enron would like to spud this well as soon as all agreements can be reached.

Sincerely,

ENRON OIL & GAS COMPANY

Re: Application of Enron Oil & Gas Company for Compulsory Pooling, Eddy  
County, New Mexico

Gentlemen:

This letter is to advise you that Enron Oil & Gas Company has filed the enclosed application with the New Mexico Oil Conservation Division seeking the force pooling of certain mineral interests in all formations to the base of the Morrow formation, in and under the S/2 of Section 12, Township 18 South, Range 29 East, N.M.P.M., Eddy County, New Mexico. Enron Oil & Gas Company proposes to dedicate the referenced pooled unit to its Sand Tank "12" Fed. Com. No. 1 Well to be drilled at a standard location in the S/2 of Section 12.

This application has been set for hearing before a Division Examiner on October 5, 1995. You are not required to attend this hearing, but as an owner of an interest that may be subject to pooling, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

Re: Application of Enron Oil & Gas Company for Compulsory Pooling, Eddy  
County, New Mexico

Gentlemen:

This letter is to advise you that Enron Oil & Gas Company has filed the enclosed application with the New Mexico Oil Conservation Division seeking the force pooling of certain mineral interests in all formations to the base of the Morrow formation, in and under the S/2 of Section 12, Township 18 South, Range 29 East, N.M.P.M., Eddy County, New Mexico. Enron Oil & Gas Company proposes to dedicate the referenced pooled unit to its Sand Tank "12" Fed. Com. No. 1 Well to be drilled at a standard location in the S/2 of Section 12.

This application has been set for hearing before a Division Examiner on October 5, 1995. You are not required to attend this hearing, but as an owner of an interest that may be subject to pooling, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

WILLIAM F. CARR
