COREERVATIO

Re: Administrative Application of Citation Oil & Gas Corp. for an Unorthodox Gas Well Location and Simultaneous Dedication; Eumont Gas Pool, Lea County, New Mexico

Dear Mr. LeMay:

Chevron U.S.A. Production Company, received the enclosed application for administrative approval dated September 9, 1996. On behalf of Chevron we object to the proposed unorthodox well location and request that the matter be set for hearing at the next available examiner hearing.

Thank you for your attention to this matter.

Very truly yours,

William F. Carr

Re: Administrative Application of Citation Oil & Gas Corp. for an Unorthodox Gas Well Location and Simultaneous Dedication Eumont Gas Pool Les County, New Mexico

Dear Mr. Stogner

On behalf of Citation Oil & Gas Corp., we respectfully request your approval of this administrative application for a Unorthodox Eumont Gas Well Locations and for Simultaneous Dedication as follows:

(1) Division Order NSP-488, dated May 11, 1959 approved a 320acre non-standard Eumont gas proration unit ("NSP") dedicated to the Devonian State Com Well No. 1 (API 30-025-03457) located 1980 feet from the East line and 1980 feet from the North line of Section 20, T21S, R36E, NMPM:

(2) As a result of an increasing gas-oil ratio which exceeded and continues to exceed 100,000 cubic feet of gas per barrel of oil, the Devonian State Well No. 3 (API 30-025-04730) located 660 feet from the North and East lines (Unit A) of Section 20, T215, R36E, should have been reclassified from an oil well to a gas well in this pool in December, 1990. We now seek to correct that error and ask that you approve:

Oil Conservation Division September 9, 1996 Page 2

(a) the dedication of this well to the existing 320-acre NSP; and

(b) the approval of an unorthodox well location for this well because the well is 660 feet from an outer boundary rather than 990 feet.

(3) In addition, as a result of an increasing gas-oil ratio which exceeded and continues to exceed 100,000 cubic feet of gas per barrel of oil, the Devonian State Well No. 2 (API 30-025-04729) located 660 feet from the North line and 1980 East line (Unit B) of Section 20, T21S, R36E, also should have been reclassified from an oil well to a gas well in this pool in September, 1990. We now seek to correct that error and ask that you approve:

(a) the dedication of this well to the existing 320-acre NSP; and

(b) the approval of an unorthodox well location for this because the well is 660 feet from an outer boundary rather than 990 feet.

In accordance with Division Rule 104.D(2) and Rule 104.F, Citation has enclosed:

- (a) Exhibit "A" a map showing offset operators
- (b) Exhibit "B" Operator's Monthly Report Form C-115, page 6 dtd 7/96
- (c) Exhibit "C" notice list
- (d) Division Form C-102 for the two additional wells to be dedicated to the existing 320-acre non-standard proration unit.

Oil Conservation Division September 9, 1996 Page 3

By copy of this letter and attachments, along with a waiver of objection form is being sent by Certified Mail to all offset operators as their notice of this application. We are hereby advising each of them that should they have any objection to this application, then they are required to file a written objection with the Division within twenty (20) days of the date of this application.

Please call me if you have any questions.

Verschuly yours.

W. Thomas Kellahin
