Re: Application of Mewbourne Oil Company for Compulsory Pooling, a Non-Standard Spacing Unit and an Unorthodox Well Location, Lea County, New Mexico

Gentlemen:

This letter is to advise you that Mewbourne Oil Company has filed the enclosed application with the New Mexico Oil Conservation Division seeking the force pooling of all mineral interests to a depth sufficient to test all formations from the surface to the base of the Yates-Seven Rivers-Queen formation, Eumont Gas Pool, in and under certain described spacing units in the S/2 of Section 21, Township 19 South, Range 37 East, N.M.P.M., Lea County, New Mexico. Mewbourne Oil Company proposes to dedicate the referenced pooled unit to its Eumont "21" State Well No. 1 to be drilled at an unorthodox well location 990 feet from the South line and 860 feet from the West line of Section 21.

This application has been set for hearing before a Division Examiner on November 7, 1996. You are not required to attend this hearing, but as an owner of an interest that may be subject to pooling, or otherwise affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

Re: Application of Mewbourne Oil Company for Compulsory Pooling, a Non-Standard Spacing Unit and an Unorthodox Well Location, Lea County, New Mexico

Dear Ms. Wann:

This letter is to advise you that Mewbourne Oil Company has filed the enclosed application with the New Mexico Oil Conservation Division seeking the force pooling of all mineral interests to a depth sufficient to test all formations from the surface to the base of the Yates-Seven Rivers-Queen formation, Eumont Gas Pool, in and under certain described spacing units in the S/2 of Section 21, Township 19 South, Range 37 East, N.M.P.M., Lea County, New Mexico. Mewbourne Oil Company proposes to dedicate the referenced pooled unit to its Eumont "21" State Well No. 1 to be drilled at an unorthodox well location 990 feet from the South line and 860 feet from the West line of Section 21.

This application has been set for hearing before a Division Examiner on November 7, 1996. You are not required to attend this hearing, but as an owner of an interest that may be subject to pooling, or otherwise affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,
