(See Attached Addressee List)**

NM206621 - Rhodes "23" Federal Com. No. 1
Lea County, New Mexico

Ladies and Gentlemen:

Texaco Exploration and Production Inc. (TEPI) proposes the drilling of the captioned horizontal well at a surface location 660' FSL and 1100' FWL of Section 23, T-26-S, R-37-E and a bottom hole location of 1980' FSL and 660' FWL of Section 23, T-26-S, R-37-E. Vertical depth will be approximately 3,200 feet. We anticipate a lateral in Sand 4 of the Middle Yates of approximately 500 feet. We plan an additional lateral in Sand 6 of the Middle Yates of approximately 1400 feet. The proration unit for the well will be the SW/4 of Section 23. TEPI owns the W/2 SW/4 and our records reflect that you are an owner in the E/2 SW/4 as set out in the attachment hereto.

If you would like to join us in the drilling of this well, please execute one original of the attached AFE and return it to me at your earliest convenience. I will then forward an Operating Agreement for your review. If you elect not to join in the drilling of the well, please consider the following options:

- TEPI will purchase your interest for a cash consideration of \$300 per net acre.
- TEPI will purchase a one year term assignment of your interest for \$100 per net acre assuming you can deliver a 75% net revenue interest. You would in turn retain an overriding royalty equal to the difference between 75% and existing burdens.

Please let me hear from you as soon as possible regarding your decision. We anticipate filing a force pooling action with the New Mexico Oil Conservation Division in the very near future.

Please give me a call at (915) 688-4445 if you have any questions.

Very truly yours,

Ronald W. Lanning

NM206621 - Rhodes '23' Fed. Com. No. 1 Well

Lea County, New Mexico
SW/4 Section 23, T26S, R37E

Dear Leslyn:

We have reviewed your November 19, 1996 letter regarding our proposal to drill the captioned well and your counter proposal. We have the following comments:

- Meridian Oil Inc., your predecessor in title, acquired its interest in this proration unit effective April 1, 1996 in conveyances from Doyle Hartman, et al. At that time, the acreage was subject to an Operating Agreement dated April 1, 1996 between Doyle Hartman, as Operator, and Texaco Exploration and Production Inc., et al, as Non-Operators. The agreement provided for the drilling of the Dublin Rhodes Fed. Com. with a commencement date on or before August 1, 1996. This well was never drilled by Hartman or Meridian and the Operating Agreement is no longer in effect.
- We met with you and other representatives from Burlington on August 14, 1996 regarding the drilling of a well(s) in this proration unit. At that meeting and in a subsequent telephone call we agreed to give Burlington until September 13, 1996 to propose the drilling of one horizontal or two vertical wells in the proration unit. We never heard from you regarding a proposal.
- We then proceeded with our own plans and proposed the captioned well to you and the other working interest owners on October 9, 1996.
- If Burlington does not wish to join us in the drilling of this well, we are still interested in acquiring your interest as set out in our letter of October 9, 1996. If these options are not acceptable, we will discuss any other type of trade with you.

Texaco has been attempting to get a well drilled on this acreage since August of 1995. We have given you and your predecessors in title numerous opportunities to drill and operate a well on this

Leslyn M. Swierc
Burlington Resources Oil & Gas Company

acreage. We now intend to proceed as necessary with our plans to drill and operate the captioned well.

Sincerely,

Ronald W. Lanning

Re: Amended Application of Texaco Exploration and Production Inc. for
compulsory pooling, an unorthodox surface location and directional drilling,
Lea County, New Mexico

Dear Mr. Burr:

This letter is to advise you that Texaco Exploration and Production Inc. has filed the enclosed amended application with the New Mexico Oil Conservation Division seeking the force pooling of certain mineral interests in all formations from the surface to the base of the Yates formation, in and under the SW/4 of Section 23, Township 26 South, Range 37 East, N.M.P.M., Lea County, New Mexico. Texaco Exploration and Production Inc. proposes to dedicate the referenced pooled unit as a project area to its Rhodes "23" Fed Com No. 1 Well, which will be directionally drilled in a northwesterly direction as two high angle laterals in the Yates formation, Rhodes Yates-Seven Rivers Gas Pool, from an unorthodox surface location 660 feet from the South line and 1100 feet from the West line of said Section 23.

This matter has been set for hearing before a Division Examiner on November 21, 1996. You are not required to attend this hearing, but as an owner of an interest that may be affected by the order entered in this case, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

James E. Burr
October 31, 1996

Re: Amended Application of Texaco Exploration and Production Inc. for
compulsory pooling, an unorthodox surface location and directional drilling,
Lea County, New Mexico

Dear Ms Swierc:

This letter is to advise you that Texaco Exploration and Production Inc. has filed the enclosed amended application with the New Mexico Oil Conservation Division seeking the force pooling of certain mineral interests in all formations from the surface to the base of the Yates formation, in and under the SW/4 of Section 23, Township 26 South, Range 37 East, N.M.P.M., Lea County, New Mexico. Texaco Exploration and Production Inc. proposes to dedicate the referenced pooled unit as a project area to its Rhodes "23" Fed Com No. 1 Well, which will be directionally drilled in a northwesterly direction as two high angle laterals in the Yates formation, Rhodes Yates-Seven Rivers Gas Pool, from an unorthodox surface location 660 feet from the South line and 1100 feet from the West line of said Section 23.

This matter has been set for hearing before a Division Examiner on November 21, 1996. You are not required to attend this hearing, but as an owner of an interest that may be affected by the order entered in this case, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Ms Leslyn M. Swierc
Burlington Resources
Oil & Gas Company
October 31, 1996
Page 2

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,
