Re: Positive Production Response
East Shugart Unit Waterflood Project

Dear Mr. Bruce:

I have reviewed your request dated February 24, 2000, to certify a positive production response within the East Shugart Unit Waterflood Project currently operated by Devon Energy Corporation (Nevada). From the data submitted, it appears that due to the limited number of injection wells and incomplete line drive injection patterns, not all producing wells within the unit may be benefiting from injection operations.

In order to process your application, I am requesting that Devon provide the Division a list of the producing wells within the unit that have exhibited a response to injection operations, together with supporting data.

Your application will be processed upon receipt of the requested data. If you should have any questions, please contact me at (505) 827-8184.

Sincerely,

David Catanach
Engineer
