RE: Bear Grass Draw

Eddy County, New Mexico

Dear Ms. Alexander and Ms. Wate:

InterCoast Oil and Gas Company, formerly named Medallion Production Company, ("InterCoast") has acquired interests in the referenced lands pursuant to well trade agreements with Logro Corporation. In this connection, InterCoast proposes the drilling of an 11,000' Morrow well at a location in the SE/4 of Section 33. Dry hole costs are estimated to be \$471,750 with total completed well costs estimated at \$801,500, as shown on the enclosed AFE.

InterCoast proposes that you support the test well by participating with your proportionate interest or by granting us a farmout pursuant to the following terms:

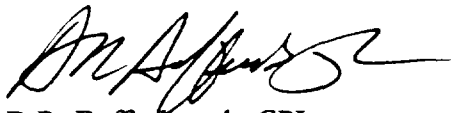

1. On or before 150 days following the execution of a definitive agreement, InterCoast would commence or cause the commencement of an 11,000' Morrow test at a legal location in the SE/4 of Section 33.
2. In the event the test well results in a well capable of producing in commercial quantities, InterCoast would earn an assignment covering all of your interest in the S/2 of Section 33 from the surface of the earth to the total depth drilled in the test well. Such Assignment would be limited to the proration unit established for the test well and any and all equipment used and obtained in connection therewith.
3. You would reserve in such assignment an overriding royalty interest equal to the difference between existing leasehold burdens and 25%, proportionately reduced to the interest being assigned.
