ENERGY, MINERALS, AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**IN THE MATTER OF THE HEARING
CALLED BY THE OIL CONSERVATION
COMMISSION FOR THE PURPOSE OF
CONSIDERING:**

**CASE NO. 11829
Order No. R-10887**

**GAS ALLOWABLES FOR THE
PRORATED GAS POOLS IN NEW
MEXICO FOR OCTOBER, 1997
THROUGH MARCH, 1998.**

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 o'clock a.m. on August 14, 1997, at Santa Fe, New Mexico, before the Oil Conservation Commission of New Mexico, hereinafter referred to as the "Commission."

NOW, on this 25th day of September, 1997, the Commission, a quorum being present, having considered the testimony, the exhibits received at said hearing, and being fully advised in the premises,

FINDS THAT:

(1) Due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) This hearing was called for the purpose of accepting nominations and other evidence and information to assist in determining October, 1997 through March, 1998 gas allowables for the prorated gas pools in New Mexico. Nine of the prorated gas pools are in Lea, Eddy, and Chaves Counties in Southeast New Mexico, and the other four prorated gas pools are in San Juan, Rio Arriba, and Sandoval Counties in Northwest New Mexico.

(3) Since 1991, allowables for the prorated gas pools in New Mexico have been established for six month allocation periods beginning in April and October of each year. Allowables have been determined using prior year allocation period production volumes with adjustments where appropriate based on evidence and recommendations from operators, purchasers, and transporters.

(4) For the past several allocation periods, non-marginal allocation factors and well allowables have remained almost constant in most pools. Increased demand for New Mexico gas has resulted in a large reduction in the number of non-marginal wells and the assignment of marginal allowables to most wells in prorated pools.

(5) At the August 14 hearing, the Oil Conservation Division proposed that the allowable factors used for the April, 1997 through September, 1997 allocation period be continued for the October, 1997 through March, 1998 period. The Division also proposed that these factors be used for future allocation periods until such time as it is determined that changes are needed.

(6) Industry representatives at the hearing expressed general support for the OCD proposed allowables.

(7) No one objected to the proposed allowables.

(8) The allocation factors proposed by OCD should be approved.

IT IS THEREFORE ORDERED THAT:

(1) Exhibit "A", attached to and incorporated herein, is adopted for the purpose of making allowable assignments for the prorated gas pools in New Mexico for the months of October, 1997 through March, 1998.

(2) The allowable allocation factors shown in Exhibit "A" shall be used as Division recommended allowables for future allocation periods until such time as it is determined that changes are needed.

(3) Jurisdiction of this cause is retained for the entry of such further orders as the Commission may deem necessary.
