**Re: Well Proposal - Mitchusson 4 State No. 1
S/2 Section 4, T-19-S, R-28-E, N.M.P.M.,
Eddy County, New Mexico**

Gentlemen:

Marathon Oil Company (Marathon), as Operator, hereby proposes the drilling of a well to a depth sufficient to adequately test the Morrow formation, anticipated total depth being 11,200'. Furthermore, Marathon shall evaluate to its satisfaction, all other formations encountered at lesser depths in the drilling of said well. The S/2 of the captioned Section 4 will be dedicated as the proration unit for the well.

The above well will be located at a legal location in the SW/4 of Section 4, T-19-S, R-28-E, Eddy County, New Mexico. An AFE is enclosed for your review. Should you desire to participate to the full extent of your interest in the drilling of this proposed well, please return an executed copy of the AFE to the undersigned at your earliest convenience.

A Joint Operating Agreement will be provided for your review and execution upon receipt of the executed AFE; or by prior written request.

In the event you do not wish to participate, Marathon respectfully requests you elect one of the following options as to your interest:

1. Sell a two year term assignment of all of your right, title and interest in the S/2 of Section 4, subject to title approval, for \$250 per net acre, delivering an 80% net revenue interest to Marathon.
2. Farmout all of your interest in the the S/2 of Section 4 for a period of one hundred-eighty (180) days to Marathon under the following general terms:
 - (a) If any well drilled, deepened, completed or recompleted under the terms of our Farmout Agreement results in oil and/or gas production on a proration unit that includes your acreage, Marathon will earn an assignment of 100% of your rights and interest, free of any liens or encumbrances, in the proration unit assigned to each well from a depth of 500' below the top of the San Andres formation to a depth of 100'

below the total depth drilled for each well, not to exceed the base of the Morrow formation.

- (b) Upon completion of the initial test well as a producer or dry hole, Marathon would have the recurring option, but not the obligation, to commence additional wells on New Mexico Oil Conservation approved proration units that include your acreage to establish oil and/or gas production under the captioned lands or land pooled therewith. If any such option is exercised, Marathon agrees to allow not more than 180 days to elapse between the completion of one well and the commencement of operations for any next well.
- (c) You will retain an overriding royalty interest equal to the difference, if any, between 25% of all oil and gas produced and the total of all royalty interests, overriding royalty interests and other burden or lawful claims upon production to which your leases may be currently subject, so that Marathon will be assigned a 75% net revenue interest in your lease(s) as to rights below a depth of 500' below the top of the San Andres formation to 100' below the total depth drilled, not to exceed the base of the Morrow formation. Such overriding royalty interest retained by you shall be subject to proportionate reduction.
- (d) Upon acceptance of our farmout proposal, you agree to furnish, at no cost to Marathon, title information such as copies of the leases covering the captioned lands, title opinions currently in your possession, title curative, letter agreements and any contracts currently in effect, etc.

Should the above general terms be acceptable to you, our formal Farmout Agreement will be provided under separate cover.

Your earliest response to this proposal would be greatly appreciated. If there are any questions, please call the undersigned at (915) 687-8490.

Very truly yours,

Gentlemen:

On September 8, 1997, Marathon sent to you, via certified return receipt mail, two (2) well proposals under separate cover. We received the return receipt for the Courtman 4 State No. 1 Well proposal stamped received September 9, 1997. We have not received the return receipt for the Mitchusson 4 State No. 1 Well proposal.

Subsequent telephone conversations with you indicated that you did receive both well proposals. If this is correct, please sign one copy of this letter below and return to us.

Thank you for your help in this matter.

Sincerely,

A handwritten signature in cursive that reads 'Tim Robertson'.

Re: Operating Agreement

Dear Working Interest Owner:

Enclosed is an Operating Agreement with extra signature pages for the captioned well. The AFE and well proposal was mailed to you on September 8, 1997. If you plan to participate in this well, please execute and return the AFE and the extra signature pages to this Operating Agreement. If you do not plan to participate, we request that you either sell Marathon a term assignment covering your interest in this well or farmout your interest to Marathon under the terms outlined in our well proposal dated September 8, 1997.

If you have any questions, please call me at (915) 687-8490.

Sincerely,

A handwritten signature in cursive script that reads "Tim Robertson".

1 and the well shall then be turned over to Operator and shall be operated by it at the expense and for the account of the Consenting Parties. Upon commencement of operations for the drilling, reworking, deepening or plugging back of any such well by Consenting Parties in accordance with the provisions of this Article, each Non-Consenting Party shall be deemed to have relinquished to Consenting Parties, and the Consenting Parties shall own and be entitled to receive, in proportion to their respective interests, all of such Non-Consenting Party's interest in the well and share of production therefrom until the proceeds of the sale of such share, calculated at the well, or market value thereof if such share is not sold, (after deducting production taxes, excise taxes, royalty, overriding royalty and other interests not excepted by Article III.D. payable out of or measured by the production from such well accruing with respect to such interest until it reverts) shall equal the total of the following:

9
10
11
12 (a) 100% of each such Non-Consenting Party's share of the cost of any newly acquired surface equipment beyond the wellhead connections (including, but not limited to, stock tanks, separators, treaters, pumping equipment and piping), plus 100% of each such Non-Consenting Party's share of the cost of operation of the well commencing with first production and continuing until each such Non-Consenting Party's relinquished interest shall revert to it under other provisions of this Article, it being agreed that each Non-Consenting Party's share of such costs and equipment will be that interest which would have been chargeable to such Non-Consenting Party had it participated in the well from the beginning of the operations; and

13
14
15

52
53 Within sixty (60) days after the completion of any operation under this Article, the party conducting the operations for the Consenting Parties shall furnish each Non-Consenting Party with an inventory of the equipment in and connected to the well, and an itemized statement of the cost of drilling, deepening, plugging back, testing, completing, and equipping the well for production; or, at its option, the operating party, in lieu of an itemized statement of such costs of operation, may submit a detailed statement of monthly billings. Each month thereafter, during the time the Consenting Parties are being reimbursed as provided above, the party conducting the operations for the Consenting Parties shall furnish the Non-Consenting Parties with an itemized statement of all costs and liabilities incurred in the operation of the well, together with a statement of the quantity of oil and gas produced from it and the amount of proceeds realized from the sale of the well's working interest production during the preceding month. In determining the quantity of oil and gas produced during any month, Consenting Parties shall use industry accepted methods such as, but not limited to, metering or periodic well tests. Any amount realized from the sale or other disposition of equipment newly acquired in connection with any such operation which would have been owned by a Non-Consenting Party had it participated therein shall be credited against the total unreturned costs of the work done and of the equipment purchased in determining when the interest of such Non-Consenting Party shall revert to it as above provided; and if there is a credit balance, it shall be paid to such Non-Consenting Party.

Gentlemen:

I have just been informed today that Maralo intends to appear in opposition to Marathon at the Mitchusson pooling hearing set for December 4, 1997. Marathon is willing to drop Maralo, Inc., Erma Lowe, MRL Partners, LP, Lowe Partners, LP, and L. R. French, Jr. (hereafter collectively called "the Maralo Group") from the Mitchusson pooling case if Maralo, on behalf of the Maralo Group, will agree as follows:

- 1) Maralo will sign and fax to me by the end of the day tomorrow the letter agreement I faxed to you yesterday setting out the basic terms you and I have agreed to regarding the term assignments from the Maralo Group to Marathon of the Group's interests in the Courtman well.
- 2) The Maralo Group will elect in writing to either join the Mitchusson well or assign its interests to Marathon on the same terms as it is assigning its interests in the Courtman well, within 30 days of Maralo's receipt of all logs run by Marathon on the Courtman well, except that if Marathon plans to move the drilling rig directly from the Courtman well to the Mitchusson well, the Maralo Group will make its election within 48 hours of Maralo receiving the Courtman logs.

If Maralo accepts these terms on behalf of the Maralo Group, please sign below and fax this letter back to me by the end of the day tomorrow, along with the letter agreement pertaining to the Courtman well.

Sincerely,

Gentlemen:

Maralo, Inc. received Marathon's proposals for the captioned wells on September 16, 1997. Negotiations for Marathon to acquire a Term Assignment under the Courtman Well have been ongoing since that time. On November 4, 1997, you informed Marathon that the ownership of the "Maralo Interests" in these wells belonged to Maralo, Inc., Erma Lowe, MRL Partners, LP and L. R. French, Jr., and that Maralo, Inc. would represent these parties in the negotiations. These parties were all sent notices for our Compulsory Pooling hearings for these two wells which are now scheduled for December 4, 1997. On November 26, 1997, you informed Marathon that the interest of Erma Lowe was actually owned by Lowe Partners, LP and that Maralo, Inc. would also represent them in the negotiations.

If the above sequence of events is incorrect, please contact me today at 915-687-8490.

If you have any questions, please call me.

Sincerely,

A handwritten signature in cursive script that reads "Tim Robertson".
