**Re: Application of Merrion Oil & Gas  
Non-Standard Location  
Compulsory Pooling  
Vine Com #1  
Fulcher Kutz Pictured Cliffs Pool  
NW/4 Section 15, T29N, R13W  
San Juan County, New Mexico**

Dear Mr. Stogner:

Merrion Oil & Gas Corporation plans to drill the Vine Com #1 at a location of 670' fnl, 1290' fwl, Section 15, T29N, R13W. In that regard, we request approval for the following:

1.) Non-Standard Location

The footages for the well are non-standard for a 160 acre gas proration unit. The well is located within the City of Farmington, virtually a few hundred yards from Main Street. A year long search for a suitable location resulted in this site as perhaps the only suitable drilling location in this business/residential district. Therefore, for topographic reasons, Merrion requests approval to drill the well at a non-standard location.

2.) Compulsory Pooling

Because it is within the City of Farmington, the spacing unit is made up of hundreds of fee leases. Because of difficulty locating and/or negotiating with a few mineral owners, Merrion has been unable to obtain leases on all the acreage in the spacing unit. In addition, not all of the working interest owners have committed to the well. Therefore, Merrion requests your approval for compulsory pooling of these interests for the drilling of this well based upon terms and conditions which include:

- a.) Merrion Oil & Gas Corp. be named operator;

Page Two  
March 13, 1998

- b.) Provisions for applicant and all working interest owners to participate in the costs of drilling, completing, equipping, and operating the well;
- c.) In the event a mineral owner or working interest owner fails to elect to participate, then provision be made to recoup out of production, the costs of drilling, completing, equipping, and operating the well, including a risk factor penalty of 200%;
- d.) Provisions for overhead rates per month drilling and per month operating and a provision providing for an adjustment method of the overhead rates as provided by COPAS; and
- e.) For such other and further relief as may be proper.

Attached in support of this application are the following:

- 1.) Well location plat showing spacing unit and offset operators.
- 2.) A list of all offset operators, unleased mineral owners, and uncommitted working interest owners who received copies of this application.

Please let me know if additional information is needed. Please schedule this matter for hearing for Thursday, April 16, 1998.

Sincerely,

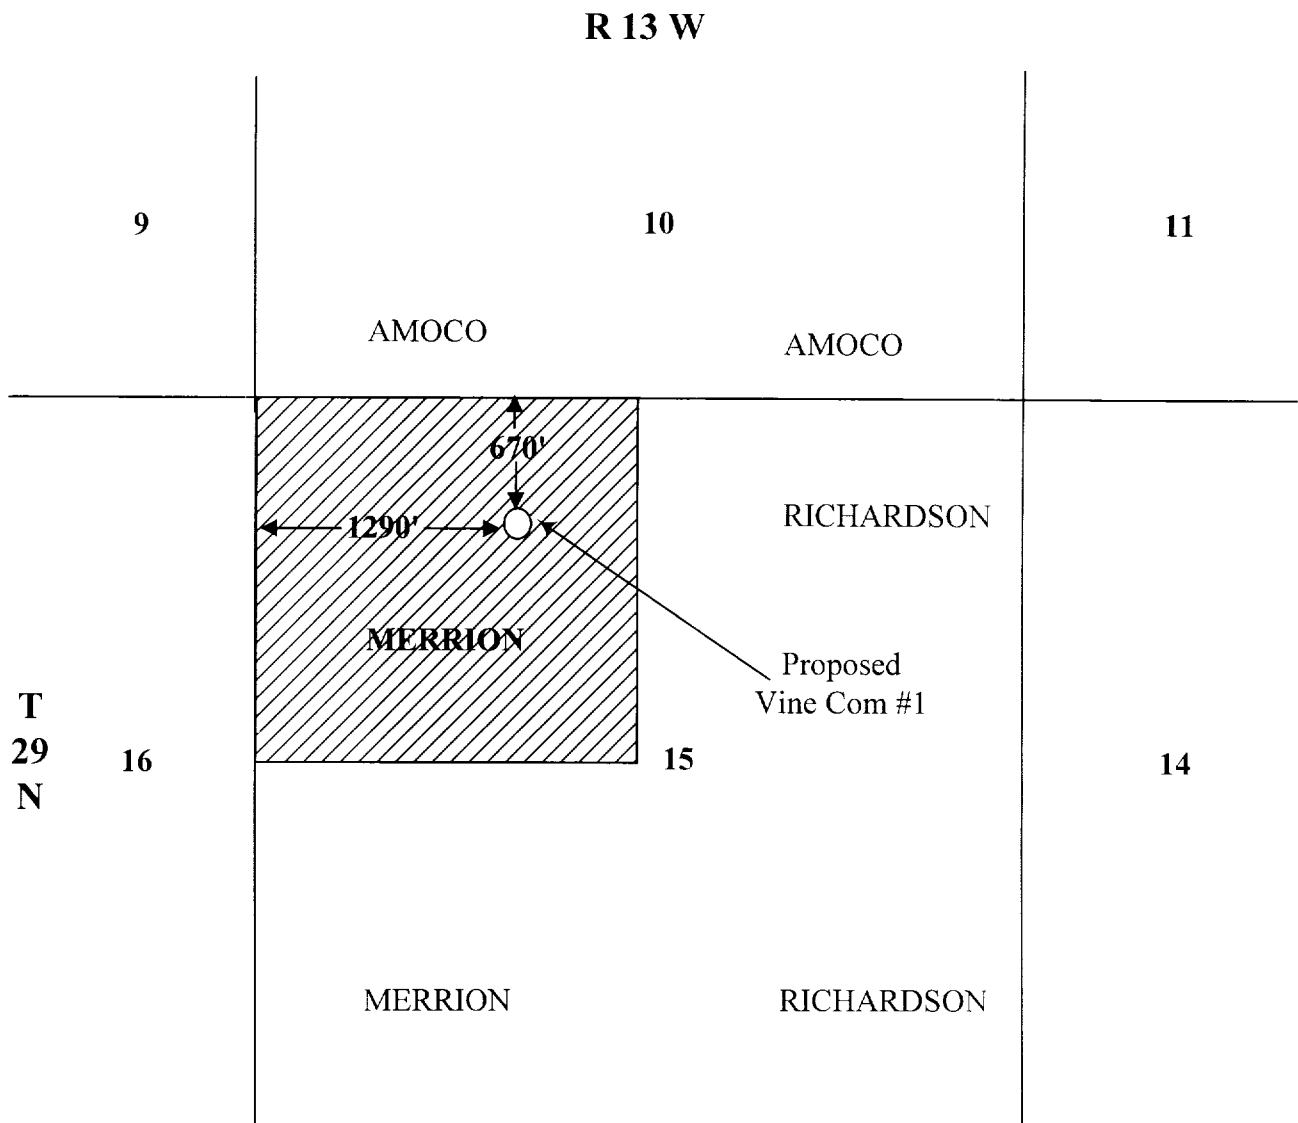

George F. Sharpe  
Manager - Oil & Gas Investments
