Dear Mr. Stogner:

Merrion Oil & Gas plans to drill the Fifield Com #1E in the NW/4 of Section 5, T 29N, R 11W, San Juan County, New Mexico.

The spacing unit is made up of three leases with two other Working Interest Owners. Merrion has been unable to get the other two Working Interest Owners to commit to drilling the well. - a) Merrion Oil & Gas Corporation be named operator;
- b) Provisions for applicant and all working interest owners to participate in the costs of drilling, completing, equipping, and operating the well;
- c) In the event a working interest owner fails to elect to participate, then provisions will be made to recoup out of production, the costs of drilling, completing, equipping, and operating the well, including a risk factor penalty of 200%.
- d) Provisions for overhead rates per month drilling and per month operating and a provision providing for an adjustment method of the overhead rates as provided by COPAS; and
- e) For such other and further relief as may be proper.
