Rand ---- also I will fax a very interesting letter from Willow concerning above . Thanks TWG

Rand---- I have faxed you a copy of Harlow' s response to may letter of 8/26/97 . The C-104 change to Willow was effective 3/1/96 , we received the C-104 ' s in August and willow's bond was approved 3/5/97 by Santa Fe as per this letter. I believe that Harlow is still the operator of record until the C-104's are approved . I do not approve C-104's until it is verified that a bond is in place and not the date of the bond.

I will send the original letter and copies back with Bill.

Please advise the next step.
