CASE 139: Application of Santa Fe Snyder Corporation, for compulsory pooling, Lea County, New Mexico. Applicant seeks an order pooling all mineral interests from the surface to the base of the Morrow formation underlying the E/2 of Section 11, T21S, R34E, NMPM, Lea County, New Mexico to form a standard 320-acre spacing and proration unit for any and all formations and/or pools developed on 320-acre gas spacing within this vertical extent. This unit is to be dedicated to its Outland "11" State Com Well No. 1 to be drilled and completed at a standard gas well location in Unit I of this Section. Also to be considered will be the costs of drilling and completing said well and the allocation of the costs thereof as well as actual operating costs and charges for supervision, designation of the applicant as the operator of the well and a charge for risk involved in this well. This unit is located approximately 10 miles west of Oil Center, New Mexico.

IN THE MATTER OF THE APPLICATION  
OF SANTA FE SNYDER CORPORATION  
FOR COMPULSORY POOLING  
LEA COUNTY, NEW MEXICO.

CASE NO. 72-96

**A P P L I C A T I O N**

Comes now SANTA FE SNYDER CORPORATION, by its attorneys, Kellahin & Kellahin and, in accordance with NMSA 1978, Section 70-2-17(c), applies to the New Mexico Oil Conservation Division for an order pooling all interests from the surface to the base of the Morrow formation underlying the E/2 of Section 11, T21S, R34E, NMPM, Lea County, New Mexico to form a standard 320-acre spacing and proration unit for any and all formations and/or pools developed on 320-acre gas spacing within this vertical extent. This unit is to be dedicated to its Outland "11" State Com Well No. 1 to be drilled and completed at a standard gas well location in Unit I of this Section. Also to be considered will be the costs of drilling and completing said well and the allocation of the costs thereof as well as actual operating costs and charges for supervision, designation of the applicant as the operator of the well and a charge for risk involved in this well.

In support of its application, Santa Fe Snyder Corporation, ("Santa Fe") states:

1. Santa Fe has a working interest ownership in the oil and gas minerals from the surface to the base of the Morrow formation underlying a portion of the E/2 of Section 11, T21S, R34E, NMPM, Lea County, New Mexico.
2. Santa Fe has proposed this well to all of the appropriate interest owners in this spacing and proration unit.
3. Despite its good faith efforts, Santa Fe has been unable to obtain a written voluntary agreement from those remaining working interest owner listed on Exhibit "A."

4. Pursuant to Section 70-2-17(c) NMSA (1978) and in order to obtain its just and equitable share of potential production underlying this spacing unit, applicant needs an order of the Division pooling the identified and described mineral interests involved in order to protect correlative rights and prevent waste.

5. In accordance with the Division's notice requirements, a copy of this application has been sent to the parties whose interest is to be pooled as listed on Exhibit "A" notifying each of this case and of the applicant's request for a hearing of this matter before the Division on the next available Examiner's docket now scheduled for December 2, 1999.

WHEREFORE, Santa Fe, as applicant, requests that this application be set for hearing on December 2, 1999 before the Division's duly appointed examiner, and that after notice and hearing as required by law, the Division enter its order pooling the mineral interests described in the spacing unit for the drilling of this well at a standard gas well location upon terms and conditions which include:

- (1) Santa Fe Snyder Corporation be named operator;
- (2) Provisions for applicant and all working interest and unleased mineral owners to participate in the costs of drilling, completing, equipping and operating this well;
- (3) In the event a working interest or unleased mineral interest owner fails to elect to participate, then provision be made to recover out of production, the costs of the drilling, completing, equipping and operating the well, including a risk factor penalty of 200%;
- (4) Provision for overhead rates per month drilling and per month operating and a provision providing for an adjustment method of the overhead rates as provided by COPAS; and
- (5) For such other and further relief as may be proper.
