**Re: Request for Extension to Implement Waterflood  
WEST TEAS UNIT  
Case No. 12332, Order No. R-11375  
Lea County, New Mexico**

Dear Mr. Catanach:

On May 18, 2000 your office granted Falcon Creek Resources, Inc. authority for a period of one year to implement the captioned waterflood. A copy of the Exhibit "A" to the Order, showing the six (6) injection wells, is attached for your convenience.

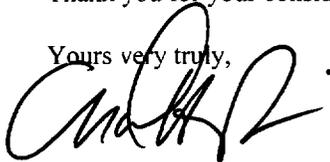

Because Falcon Creek was merged into Sapient Energy Corp. on July 14, 2000 a six month extension was requested and granted by your office on February 26, 2001. A copy of said letter is also attached for your convenience. The authority to inject now expires on November 18, 2001.

The purpose of this letter is to request an additional six month period to inject due to the longer than anticipated time required to close the Falcon Creek Denver office and the recruitment and hiring of qualified Permian Basin personnel. Moreover, Sapient has hired a Houston based consulting engineering firm to evaluate all of its properties including the subject waterflood in order to evaluate further merger opportunities. Those evaluations are only now being finalized.

Therefore, we respectfully request a six month extension from November 18, 2001 until May 18, 2002 to commence flood implementation.

Thank you for your consideration in this matter. Should you have any questions, please give me a call.

Yours very truly,

Charles H. Perrin
