Re: Applications of Doyle Hartman; Docket Nos. 12361 and 12362

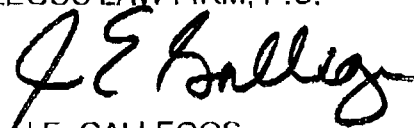

Dear Examiner Catanach:

This is to confirm my oral advisement to you earlier that there is no need for the above proceedings to remain on the Division hearing docket. These cases involved objections to certain pending applications by SDX Resources, Inc. to drill or recomplete additional wells on existing proration units in the Jalmat Gas Pool. Those applications have been voluntarily withdrawn by SDX so the matters are moot. While Hartman was not in fact ever the "applicant" in these dockets, since they are so styled we are advising that they dismissed or such other disposition made as the Division thinks appropriate under the circumstances.

Your truly yours,

GALLEGOS LAW FIRM, P.C.
