RE: Zephyr "33" State Com #1  
900' FSL, 660' FEL  
Section 33-16S-28E  
Eddy County, New Mexico  
Mesa Cuervo Prospect  
E/2 Spacing Unit

Gentlemen:

Following EOG Resources, Inc.'s ("EOG") revised well proposal of March 30, 2000, please be advised that the location has been moved to 900' FSL and 660' FEL of Section 33. Due to a shallow well lying at the 660'-660' location, EOG is forced to move the drilling location to meet regulatory requirements. The drilling of the Zephyr "33" State Com #1 well as a 10,100' Lower Morrow/Chester test remains with the E/2 Section 33-T16S-R28E, Eddy County, New Mexico as the spacing unit.

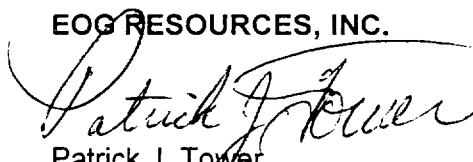

Once again, please find two (2) AFE's for this test. Should you elect to participate, please execute and return one (1) AFE.

As stated before, EOG has a rig scheduled to move to this location within the next few weeks and your immediate attention to this matter will be appreciated. We apologize for any inconvenience these changes may have caused.

Should you have any questions, please feel free to call me at (915) 686-3758.

Sincerely,

**EOG RESOURCES, INC.**

Mesa Cuervo Prospect  
E/2 Spacing Unit

Gentlemen:

Following EOG Resources, Inc.'s ("EOG") well proposal of March 1, 2000, please be advised that the location has been moved to 660' FSL and 660' FEL of this Section 33. The drilling of the Zephyr "33" State Com #1 well as a 10,100' Lower Morrow/Chester test remains with the E/2 Section 33-T16S-R28E, Eddy County, New Mexico as the spacing unit.

Once again, please find two (2) AFE's for this test. Should you elect to participate, please execute and return one (1) AFE. An Operating Agreement will be forwarded upon such election.

EOG has a rig scheduled to move to this location in the very near future. Since rigs are scarce, your immediate attention to this matter will be appreciated. As we have not heard from several of the parties, EOG plans to initiate force pooling in the near future. Our preference however would be to secure a voluntary agreement.

Should you elect not to participate, EOG is willing to consider a mutually agreeable trade. Please call and we will be glad to discuss terms

Should you have any questions, please feel free to call me at (915) 686-3758.

Sincerely,

Gentlemen:

EOG Resources, Inc. proposes the drilling of the Zephyr "33" State Com #1 as a 10,100' Lower Morrow/Chester test at a legal location in the SE/4 Section 33-T16S-R28E, Eddy County, New Mexico. According to our records, Devon owns a 27.34375% W.I. in the referenced lands. This would give Devon a 10.25391% W.I. in an E/2 spacing unit.

In this regard please find two (2) AFE's for this test. Should you elect to participate, please execute and return one (1) AFE. An Operating Agreement will be forwarded upon such election.

Should you elect not to participate, EOG is willing to renew its offer for a Term Assignment (previously declined by Devon) or will consider a mutually agreeable farmout. Please call and we will be glad to discuss terms. This property was acquired by Devon recently from PennzEnergy.

Should you have any questions, please feel free to call me at (915) 686-3758.

Carla,

Following the conversation with Ken Gray, I am forwarding Term Assignment offer that EOG had presented PennzEnergy in August. I have had several conversations with Tom Calkins and he said he would present to Devon. My understanding is he is no longer there. Could you followup on this proposal and call me at your earliest convenience. Thank you.
