Dear Trustee:

By letter dated February 25, 2000, Santa Fe Snyder Corporation (Santa Fe) proposed drilling the referenced well to BTA Oil Producers (BTA). Subsequent to the February 25<sup>th</sup> proposal letter, title to the E/2 of said Section 18 was examined for the purpose of obtaining a Drilling Title Opinion. As a result, it has come to Santa Fe's attention that, by assignment (the "Assignment") dated February 1, 1985, recorded in Book 380, Page 490 of the Lea County Official Public Records, BTA conveyed all of its interest in the SE/4 of said Section 18, along with other lands, to you and approximately 85 other interest owners.

In order to supplement Santa Fe's February 25<sup>th</sup> proposal of the referenced well and to insure proper notification, Santa Fe hereby extends to you the opportunity to participate in the proposed Paloma Blanco "18" Fed COM #1 well as a 13,700 foot Morrow test to be located 1,980' FNL & 660' FEL of Section 18, T-23-S, R-34-E, Lea County, New Mexico. A proration unit consisting of the E/2 of said Section 18 will be formed if the well is successfully completed in the Morrow formation.

Enclosed are duplicate AFE Well Cost Estimates for this well. You will be provided with an Operating Agreement covering the E/2 of said Section 18 the near future. Should you choose to participate in the proposed well, please execute and return one of the enclosed AFE Well Cost Estimates and the Operating Agreement. Please also provide your well information requirements.

We thank you for your consideration of this proposal. If you have any questions, my direct number is (915) 686-6712.

PALOMA BLANCO PROSPECT #NM-0415

Dear Trustees:

By letter dated February 25, 2000, Santa Fe Snyder Corporation (Santa Fe) proposed drilling the referenced well to BTA Oil Producers (BTA). Subsequent to the February 25<sup>th</sup> proposal letter, title to the E/2 of said Section 18 was examined for the purpose of obtaining a Drilling Title Opinion. As a result, it has come to Santa Fe's attention that, by assignment (the "Assignment") dated February 1, 1985, recorded in Book 380, Page 490 of the Lea County Official Public Records, BTA conveyed all of its interest in the SE/4 of said Section 18, along with other lands, to you and approximately 85 other interest owners.

In order to supplement Santa Fe's February 25<sup>th</sup> proposal of the referenced well and to insure proper notification, Santa Fe hereby extends to you the opportunity to participate in the proposed Paloma Blanco "18" Fed COM #1 well as a 13,700 foot Morrow test to be located 1,980' FNL & 660' FEL of Section 18, T-23-S, R-34-E, Lea County, New Mexico. A proration unit consisting of the E/2 of said Section 18 will be formed if the well is successfully completed in the Morrow formation.

Enclosed are duplicate AFE Well Cost Estimates for this well. You will be provided with an Operating Agreement covering the E/2 of said Section 18 the near future. Should you choose to participate in the proposed well, please execute and return one of the enclosed AFE Well Cost Estimates and the Operating Agreement. Please also provide your well information requirements.

We thank you for your consideration of this proposal. If you have any questions, my direct number is (915) 686-6712.
