Pool ~~12615~~

Florene,

I ran across paperwork yesterday that changed dedication in Dugan's Phillips #1 hole from the Fruitland Sand to the Basin Fruitland Coal. This was done between Dugan and the BLM after the completion report was published. I used the report to establish the Bisti Fruitland Sand/Pictured Cliffs Gas Pool (97073) which is on the docket for next week. I now need to change the pool to Pictured Cliffs only. I will do this in ONGARD now but need to get this change into the hearing. I talked to Mike Stogner about this today and he suggested I do it by emailing you and then it could be modified at hearing.

I am sorry for the added complication to this hearing docket, but at least it happened before the fact.
