IN THE MATTER OF THE APPLICATION
OF OXY USA WTP Limited Partnership
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.

CASE NO. 12652

A P P L I C A T I O N

OXY USA WTP Limited Partnership ("OXY") by its attorneys, Kellahin & Kellahin, and in accordance with Section 70-2-17.C NMSA (1978) and Division Rule 1207.A(1)(b), applies to the New Mexico Oil Conservation Division for an order pooling all mineral interests from the surface to the base of the Morrow formation underlying the E/2 Section 21, T17S, R28E, NMPM, Eddy County, New Mexico, forming a standard 320-acre gas spacing and proration unit for any and all formations and/or pools spaced on 320-acre spacing, including but not limited to the Empire-Pennsylvanian Gas Pool. This unit is to be dedicated to its PIB Well No. 1 which was drilled and completed at a standard well location in Unit G of this section.

In support of its application, OXY states:

1. OXY has a working interest ownership in the oil and gas minerals from the surface to the base of the Morrow formation underlying the E/2 of Section 9, T17S, R28E, NMPM, Eddy County, New Mexico.
2. This well will be located within one mile of the Empire-Pennsylvanian Gas Pool.
3. This well was drilled at a standard well location in the SW/4NE/4 (Unit G) of Section 21 to test any and all formations in the pooled interval from the surface to the base of the Morrow formation.
4. OXY has the voluntary agreement of 100% of the working interest ownership of the oil & gas minerals from the surface to the base of the Morrow formation underlying the various possible spacing units within this unit.

5. The E/2 of Section 21 consists of five tracts:

Tract 1-A is a federal lease covering the N/2/NE/4

Tract 1-B is a federal lease covering the S/2NE/4

Tract 2-A is a state lease covering the NW/4SE/4

Tract 2-B is a state lease covering the NE/4SE/4

Tract 2-C is a state lease covering the S/2SE/4

6. Walter Granberry, Jr. is the present record title owner of Tract 2-A and has a 6.25 % of 3/8th ORR covering this tract. He has no working interest in the spacing unit.

7. Because the spacing unit consists of multiple leases, a communitization agreement is necessary to consolidate the interests.

8. OXY, despite its good faith effort, has been unable to obtain Walter Granberry, Jr.'s ratification of the communitization agreement. See Exhibit "A".

9. Pursuant to Section 70-2-17(c) NMSA (1978) and in order to obtain its just and equitable share of potential production underlying this spacing unit, OXY needs an order of the Division pooling the identified and described mineral interests involved in order to protect correlative rights and prevent waste.

10. OXY requests that this application be processed in accordance with Division Rule 1207.A(1)(b) and at the time of hearing will submit the data required by this rule.

11. In accordance with the Division's notice requirements, a copy of this application has been sent to the parties whose interest is to be pooled as listed on Exhibit "B" notifying each of this case and of the applicant's request for a hearing of this matter before the Division on the next available Examiner's docket now scheduled for May 3, 2001.

WHEREFORE, OXY USA, Inc., as applicant, requests that this application be set for hearing on May 3, 2001 before the Division's duly appointed examiner, and that after notice and hearing as required by law, the Division enter its order pooling the mineral interest described in the appropriate spacing units for the drilling of the this well at a standard well location upon terms and conditions which include:

(1) OXY USA, Inc. be named operator;

NMOCD Application
