Re: Oil Conservation Division Case #12773  
Order #R-11735

Gentlemen:

As you know, the subject Compulsory Pooling Order dated February 28, 2002, in paragraph 9, page 3, requires KUKUI, as operator, to provide each "non-consenting working interest owner an itemized schedule of actual well costs within 90 days following completion of the proposed well". As of this date, which is more than 90 days after what we understand was a June 15, 2002 completion date on this well, we have yet to receive said itemized schedule.

We hereby request you immediately send such schedule.

Yours very truly,

Wilbur A. Yeager, Jr.

WAY/rp

✓Cc: Oil Conservation Division

BN: Ms. Wrotenbery, Since KUKUI, the operator, has not provided the required information, we believe that the provision in paragraph 9, page 3 concerning 45 days following receipt of the schedule of actual well costs should be extended to begin from the date we actually received the ordered information. Thank you for your attention to this matter.
