APPLICATION

NEARBURG EXPLORATION COMPANY, L.L.C. ("Nearburg"), through its undersigned attorneys, hereby makes application pursuant to the provisions of N.M.Stat. Ann. § 70-2-17, (1978), for an order pooling all mineral interests in all formations in the following described spacing and proration units located in Section 32, Township 18 South, Range 31 East, NMPM, Eddy County, New Mexico: the S/2 for all formations and/or pools developed on 320-acre spacing which includes but is not necessarily limited to the Undesignated Shugart-Morrow Gas Pool; the SE/4 for all formations and/or pools developed on 160-acre; and the SE/4 SE/4 for all formations developed on 40-acre spacing which includes but is not necessarily limited to the Shugart (Yates-Seven Rivers-Queen Grayburg) Pool; and in support of its application states:

1. Nearburg is a working interest owner in the S/2 of Section 32 and has the right to drill thereon.
2. Applicant proposes to dedicate the above-referenced spacing and proration units to its Red Cloud "32" State Com Well No. 1 to be drilled at a

standard location 660 feet from the South and East lines of said Section 32, to an approximate depth of 12,300 feet to test any and all formations from the surface to the base of the Morrow formation. This well is at a standard location for all formations and pools.

3. Applicant has sought and been unable to obtain voluntary agreement for the development of these spacing and proration units with those interest owners identified on Exhibit A to this application.

4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

5. In order to permit the Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests should be pooled, and Nearburg Producing Company should be designated the operator of the well to be drilled.

WHEREFORE, Nearburg Exploration Company, L.L.C. requests that this application be set for hearing before an Examiner of the Oil Conservation Division on February 7, 2002, and, after notice and hearing as required by law, the Division enter its order:

- A. pooling all mineral interests in the subject spacing and proration units,
- B. designating Nearburg Producing Company operator of these units and the well to be drilled thereon,

- C. authorizing Nearburg to recover its costs of drilling, equipping and completing the well,
- D. approving the operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures,
- E. providing for subsequent operations on the pooled acreage in accordance with the operating agreement between the parties, and
- F. imposing a 200% penalty for the risk assumed by Nearburg in drilling and completing the well against any working interest owner who does not voluntarily participate in the well.

Respectfully submitted,
