Re: Current Status of Oil and Gas Wells

In May of this year, the Oil Conservation Division ("Division") sent a letter to you setting forth the Division's information on wells for which you are the operator of record. The letter requested a response, and we appreciate your prompt attention to our request. The Division has updated its records based, in part, on your response.

The wells on the revised list, attached to this letter, have not shown production for in excess of one year. Based on the information in the Division's files and databases, these wells are not in compliance with the Division's rules and the New Mexico Oil and Gas Act. These wells must be brought into compliance with the law.

Please submit your plan to bring these wells into compliance including a schedule of activities with dates. Please submit this information to the Division within 30 days of the date of this letter.

Sincerely,

*Tim W. Gum*

Tim Gum  
District Supervisor
