O'Brien Deming #001 API # 30-005-60527

These 6 wells ARE not economical to produce with conventional methods Request to be allowed to casing swab weekly/bi-monthly or allowed to T&A w/ CIBP AND Pressure test casing.

If request to casing swab wells is granted

I could start this procedure no later than

March 1st 2001, If not I could have all

CIBP set a casing test done no later than

May 30th 2001

Tim, I believe that you ARE AWARE of the casing swabbing in the Cato Field that

I'm currently oversiring w/ much success to date

And I believe this is a good way to maintain production at a affordable cost.
