RE: INACTIVE NON-COMPLIANCE WELL STATUS

Dear Russell ;

Thank you for your timely response to my letter of July 25, 2001. Please find attached a list of nineteen wells operated by M.E.W. that our records show to be inactive. Please advise if your records show a different status.

This may only be a reporting problem etc; wells are actually being produced or have water injection volumes that are not being reported on Form C-115's.

Also shown are three wells in the Marlisue Queen Unit that have not changed operator.

As you were advised by my letter of February 13, 2001, it is the responsibility of the new owner to submit the necessary paper work in a change of operator. Also casing swab is not the preferred method of producing wells and placing those wells in the TA program as mentioned in your letter of January 29, 2001, would allow you time to evaluate those wells.

Sincerely,

Tim W. Gum
District II Supervisor
Oil Conservation Division
