Re: Current Status of Oil and Gas Wells

Dear Sir:

We have plans to put back on production the following wells. The work involved should be replacing rods, tubing and pumps and general maintenance work. The State "M" #1 well will be perforated and acidized to test for production. As we put these wells back on production, actual production results will dictate our future plan for additional drilling and recompletion.

- Acrey 2
- Artesia State #1
- Aston & Fair 001 Y
- Aston & Fair A #1
- Brainard #1
- Conklin #1
- Hastie 3
- Homan #1
- State M #1
- Sunray State #2

The following wells have been plugged and abandoned.
