**CERTIFIED MAIL**  
**RETURN RECEIPT REQUESTED**

To All Interest Owners:

**Re:** Case Nos. 12967 and 12968  
Applications of BP America Production Company for surface  
commingling

Dear Interest Owner:

This letter is to advise you that BP America Production Company has filed the enclosed applications for surface commingling with the New Mexico Oil Conservation Division. These applications seek to cancel surface commingling permit Nos. PLC-184 and CTB-527, reconfigure the surface commingling of production from 14 previously approved wells, and to add the production from two additional wells (B&C 25 Federal No. 3 and the Little Box State No. 6) to the previously approved surface commingling. A hearing on this matter has been set before a Division Examiner on February 6, 2003. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 1208.B to file a Prehearing Statement three days in advance of a scheduled hearing. This statement must include: the names of the parties and their attorneys, a concise statement of the case, the names of all witnesses the party will call to testify at the hearing, the approximate time the party will need to present its case, and identification of any procedural matters that are to be resolved prior to the hearing.

Very truly yours,

A handwritten signature in cursive script that reads "Amy T. Spang".

RE: Application to Surface Commingle  
Little Box State #6, Sweet Thing Federal #2, Sweet Thing Federal #1, Nasser  
Federal #1, Hilltop Federal #1, Sweet Thing 36 State #2, Little Box State #4  
Little Box Canyon (Morrow) & Indian Loafer Draw (Upper Penn) Pools  
Eddy Co., NM

Gentlemen:

BP America Production Company requests approval for a new surface commingle permit to gather gas and transport to one lease, compress the gas in one compressor, and sell the gas through one central sales point. The gas from each well will be metered separately prior to movement off lease and the individual well volumes will be allocated back based on metered production. A schematic of the commingling plan is attached to support the gas movement.

All wells in this application are flowing gas wells. All fluid produced on the individual leases will be kept on the respective leases.

The following leases were previously commingled under commingle permit no. PLC-184. Working and royalty interests were previously notified of surface commingling on April 24, 2001. Upon this application, commingle permit no. PLC-184 needs to be cancelled and the following wells need to be added to this new surface commingle permit:

- Sweet Thing Federal Unit #2 – Little Box Canyon (Morrow)
- Sweet Thing Federal Unit #1 – Little Box Canyon (Morrow)
- Nasser Federal #1 – Little Box Canyon (Morrow)
- Nasser Federal #1 – Indian Loafer Draw (Upper Penn.)
- Hilltop Federal #1 – Indian Loafer Draw (Upper Penn.)
- Sweet Thing 36 State #2 – Indian Loafer Draw (Upper Penn.)
- Little Box State #4 – Indian Loafer Draw (Upper Penn.)

The Little Box State lease, well no 6, has not had previous commingling approval. We request to add it to this new permit along with the above mentioned leases. Working and royalty interests for the Little Box State #6 have been notified of this application on September 24, 2002.

Your cooperation in this matter will be appreciated. If you have any questions, please contact me at 281/366-7655. Please send your approval to proceed to my attention at the address listed above.

Yours very truly,

Amy T. Spang  
Regulatory Compliance Analyst

OTHER: Surface Commingle ☒

12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

BP America Production Company requests for a new surface commingle permit. See attached for list of leases.

Plans are to gather gas and transport to one lease, compress the gas in one compressor, and sell the gas through one central sales point. The gas from each well will be metered separately prior to movement off lease and the individual well volumes will be allocated based on metered production.

Gas will be sold through the central sales point: EPFS meter #68474

Also, surface commingle permit #PLC-184 needs to be cancelled.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

Actual Footage Location of Well:

|                                            |                                            |
|--------------------------------------------|--------------------------------------------|
| 1980 feet from the North line and          | 660 feet from the East line                |
| Ground level Elev.<br>4420                 | Producing Formation<br>Morrow & Upper Penn |
| Pool<br>Wildcat Little Box Canyon (Morrow) | Dedicated Acreage:<br>319.86 Acr           |

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below. *Indian Water Draw (Upper Penn)*
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interest of all owners been consolidated by communitization, unitization, force-pooling, etc.?  
☐ Yes ☐ No If answer is "yes" type of consolidation \_\_\_\_\_
- If answer is "no" list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) \_\_\_\_\_
- No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interest, has been approved by the Division.

RE: Application to Surface Commingle  
B&C Federal 25 #3, Crooked Canyon 35 Fed. #1, Leggett Federal #1, Little Box  
State #3, B&C 25 Federal #1, Jaguar 26 Federal #1  
Little Box Canyon (Morrow), Indian Loafer Draw (Upper Penn), Strychnine Draw  
(Atoka), & Strychnine Draw (Strawn) Pools  
Eddy Co., NM

Gentlemen:

BP America Production Company requests approval for a new surface commingle permit to gather gas and transport to one lease, compress the gas in one compressor, and sell the gas through one central sales point. The gas from each well will be metered separately prior to movement off lease and the individual well volumes will be allocated back based on metered production. A schematic of the commingling plan is attached to support the gas movement.

All wells in this application are flowing gas wells. All fluid produced on the individual leases will be kept on the respective leases.

The following leases were previously commingled under commingle permit no. PLC-184. Working and royalty interests were previously notified of surface commingling on April 24, 2001. Upon this application, commingle permit no. PLC-184 needs to be cancelled and the following wells need to be added to this new surface commingle permit:

- Crooked Canyon 35 Federal #1 – Little Box Canyon (Morrow) Pool
- Leggett Federal #1 – Indian Loafer Draw (Upper Penn) Pool
- Little Box State #3 – Little Box Canyon (Morrow) Pool
- B&C Federal #1 – Little Box Canyon (Morrow) Pool
- Jaguar 26 Federal #1 – Strychnine Draw (Atoka/Strawn) Pool(s)

The following leases were previously commingled under commingle permit no. CTB-527. Working and royalty interests were previously notified of surface commingling on June 28, 2002. Upon this application, commingle permit no. CTB-527 needs to be cancelled and the following need to be added to this new surface commingle permit:

- B&C 25 Federal #2A – Little Box Canyon (Morrow) Pool
- Little Box State #5 - Little Box Canyon (Morrow) Pool

The B&C 25 Federal lease, well no 3, has not had previous commingling approval. We request to add it to this new permit along with the above mentioned leases. Working and royalty interests for the B&C 25 Federal #3 have been notified of this application on September 24, 2002.

Your cooperation in this matter will be appreciated. If you have any questions, please contact me at 281/366-7655. Please send your approval to proceed to my attention at the address listed above.

Yours very truly,

Amy T. Spang  
Regulatory Compliance Analyst

12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompilation.

BP America Production Company requests for a new surface commingle permit. See attached for list of leases.

Plans are to gather gas and transport to one lease, compress the gas in one compressor, and sell the gas through one central sales point. The gas from each well will be metered separately prior to movement off lease and the individual well volumes will be allocated based on metered production.

Gas will be sold through the central sales point: EPFS meter #68473

Also, surface commingle permits #PLC-184 and CTB-527 need to be cancelled.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

I

**NO ALLOWABLE WILL BE ASSIGNED TO THIS COMPLETION UNTIL ALL INTERESTS HAVE BEEN CONSOLIDATED  
OR A NON-STANDARD UNIT HAS BEEN APPROVED BY THE DIVISION**

The figure is a survey plat on a grid background. It shows a well location marked with a circle. Dimensions are given in feet and inches. The horizontal distance from the left edge to the well is 4418.3' to the left and 4421.8' to the right. The vertical distance from the bottom edge to the well is 4426.3' to the left and 4423.6' to the right. A vertical line segment of 1650' is shown to the right of the well. The plat includes two certification sections: 'OPERATOR CERTIFICATION' and 'SURVEYOR CERTIFICATION'. The operator is Michael G. Mooney, a Consulting Engineer, dated 11/21/98. The surveyor is Ronald J. Edson, a Professional Surveyor, dated OCTOBER 26, 1998. A circular seal for Ronald J. Edson, New Mexico Professional Surveyor, is also present.

4418.3' — 4421.8'

4426.3' — 4423.6'

1650'

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to work interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation \_\_\_\_\_

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side this form if necessary.) \_\_\_\_\_

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

CERTIFICATION
