

Aztec, New Mexico.  
Aug. 24, 1938

Conservation Commission,  
Santa Fe, New Mexico.

Att. Mr. Livingston, Atty.

Dear Mr. Livingston;

Persuant to our conversation pertaining to reasonable spacing of oil wells on the Farmington production zone in San Juan County, N.M. while in Santa Fe some days ago, I have, on my return called some landowners and operators together and the decision reached is specified in the here-in enclosed petition signed by most of parties interested in the developement of their lands.

I, together with the petitioners, herewith pray for the approval thereof and such rule be adopted by the State and your honorable commission for this district for that particular shallow zone.

Thanking you for early action thereon we beg to remain

Yours Sincerely,

  
J.E. Amenda

In and for the petitioners.
