(After being duly sworn Mr. Ray McLaughlin testified as follows)

Ray McLaughlin, President of the Petroleum Products Refining and Producing Company, who own and operates the Hospah lease in McKinley County.

MR. MCGLOTHLIN: Located in Section 36, range 9, township 18, section 1, range 9, township 17, the Petroleum Products Refining and Producing Company are the sole owners of the structure and have made application to the Commission for permission to drill from unorthodox locations. The reason is that along in the area on irregular locations there were some wells drilled due to some surveying errors which also was part of the cause of the wells in the field. They were not drilled in the exact ten acre spacings, in order to get the proper drainage of the field, we made application to P.A.W. for ten acre spacings, which was approved. My application to the Commission for permission of these ten acre spacings, would like to locate them where they are equally divided and proper spacings in the field. No other parties are interested in the field.

I present this map as "Exhibit A", showing the proposed location.

GOVERNOR DEMPSEY: Federal or State land.

MR. MCGLOTHLIN: Section 36 State and 1 Santa Fe land. There would be no locations which would interfere with royalty interests of either one. Happens to be all Santa Fe property.

GOVERNOR DEMPSEY: You have the approval of the P.W.A.?

MR. MCGLOTHLIN: Yes we have.

GOVERNOR DEMPSEY: Any objections from anybody here in reference to this proposal?

(No objections)

GOVERNOR DEMPSEY: The Commission grants the request.
