July 5, 1950

Oil Conservation Commission  
Santa Fe, New Mexico

Attention: Mr. Thomas J. Mabry, Chairman

Gentlemen:

We have just forwarded to you the following telegram:

"Confirming our telephone conversation with your Mr. Spurrier this morning, please consider this as our request for postponement of hearing scheduled for July 6th in case No. 225 with reference to Bough Pool, pending further study of the field. We have been advised by Magnolia Petroleum Company that they will also request postponement. Please wire us collect that postponement has been granted."

*Handwritten:* We will appreciate a postponement of this hearing in order that a further study of operating conditions in the Bough Pool may be made.

Will you please change our mailing address to Box 3307 Whittier Station, Tulsa 8, Oklahoma. → *Handwritten:* need on mailing list

Very truly yours,

J. R. SHARP, INC.

## ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a message should order it repeated, that is, telegraphed back to the originating office for comparison. For this, one-half the unrepeatd message rate is charged in addition. Unless otherwise indicated on its face, this is an unrepeatd message and paid for as such, in consideration whereof it is agreed between the sender of the message and this Company as follows:

1. The Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the unrepeatd-message rate beyond the sum of five hundred dollars; nor for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the repeatd-message rate beyond the sum of five thousand dollars, unless specially valued; nor in any case for delays arising from unavoidable interruption in the working of its lines.
2. In any event the Company shall not be liable for damages for mistakes or delays in the transmission or delivery, or for the non-delivery, of any message, whether caused by the negligence of its servants or otherwise, beyond the actual loss, not exceeding in any event the sum of five thousand dollars, at which amount the sender of each message represents that the message is valued, unless a greater value is stated in writing by the sender thereof at the time the message is tendered for transmission, and unless the repeatd-message rate is paid or agreed to be paid, and an additional charge equal to one-tenth of one percent of the amount by which such valuation shall exceed five thousand dollars.
3. The Company is hereby made the agent of the sender, without liability, to forward this message over the lines of any other company when necessary to reach its destination.
4. Except as otherwise indicated in connection with the listing of individual places in the filed tariffs of the Company, the amount paid for the transmission of a domestic telegram or an incoming cable or radio message covers its delivery within the following limits: in cities or towns of 5,000 or more inhabitants where the Company has an office which, as shown by the filed tariffs of the Company, is not operated through the agency of a railroad company, within two miles of any open main or branch office of the Company; in cities or towns of 5,000 or more inhabitants where, as shown by the filed tariffs of the Company, the telegraph service is performed through the agency of a railroad company, within one mile of the telegraph office; in cities or towns of less than 5,000 inhabitants in which an office of the Company is located, within one-half mile of the telegraph office. Beyond the limits above specified the Company does not undertake to make delivery, but will endeavor to arrange for delivery as the agent of the sender, with the understanding that the sender authorizes the collection of any additional charge from the addressee and agrees to pay such additional charge if it is not collected from the addressee. There will be no additional charge for deliveries made by telephone within the corporate limits of any city or town in which an office of the Company is located.
5. No responsibility attaches to this Company concerning messages until the same are accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.
6. The Company will not be liable for damages or statutory penalties when the claim is not presented in writing to the Company, (a) within sixty days after the message is filed with the Company for transmission in the case of a message between points within the United States (except in the case of an intrastate message in Texas) or between a point in the United States on the one hand and a point in Alaska, Canada, Labrador, Mexico, Newfoundland and St. Pierre & Miquelon Islands on the other hand, or between a point in the United States and a ship at sea or in the air, (b) within 95 days after the cause of action, if any, shall have accrued in the case of an intrastate message in Texas, and (c) within 180 days after the message is filed with the Company for transmission in the case of a message between a point in the United States and a foreign or overseas point other than the points specified above in this paragraph; provided, however, that this condition shall not apply to claims for damages or overcharges within the purview of Section 415 of the Communications Act of 1934.
7. It is agreed that in any action by the Company to recover the tolls for any message or messages the prompt and correct transmission and delivery thereof shall be presumed, subject to rebuttal by competent evidence.
8. Special terms governing the transmission of messages according to their classes, as enumerated below, shall apply to messages in each of such respective classes in addition to all the foregoing terms.
9. No employee of the Company is authorized to vary the foregoing.

June 21, 1950

Mr. R. R. Spurrier, Secretary  
State of New Mexico Oil Conservation Commission  
Santa Fe, New Mexico

Dear Mr. Spurrier:

The Rowan Oil Company has received the State of New Mexico Oil Conservation Commission Notice of Hearing on Case No. 225, scheduled for July 6, 1950. Previously, the Rowan Oil Company was appointed Chairman of the Cary Pool Subcommittee of the Lea County Operators Committee for the purpose of studying and recommending special pool rules for the Cary Pool.

The Rowan Oil Company, after due consideration, feels that the existing General Rules and Regulations of the Oil Conservation Commission, effective January 1, 1950, are adequate and effectively control drilling and production methods and practices in the Cary Pool, Lea County, New Mexico. It is recommended that no special pool rules be established for the Cary Pool at this time.

Yours very truly,

ROWAN OIL COMPANY

Artesia, New Mexico

July 3, 1950

State of New Mexico,  
Oil Conservation Commission,  
Santa Fe, New Mexico.

Gentlemen:-

In connection with CASE 225 "In the matter of the application of the New Mexico Oil Conservation Commission upon its own motion for special field rules establishing methods of drilling and production and for the purpose of regulating production, preventing waste and protecting correlative rights in the following named pools, as heretofore defined in Rule 5 of Commission Order 850, effective January 1, 1950:

\* \* \* \* \* Baish \* \* \* \* in Lea County, New Mexico \* \* \*

The Baish Pool was defined to cover wells producing from the Yates formation, and was bounded to cover and include the East half of Section 20, all of Section 21, the West half of Section 22, and the North half of Section 28, all in Township 17 South, Range 32 East, Lea County, New Mexico, all of which is covered by Federal oil and gas leases.

Prior to the designation of the "Baish Pool" wells No. 5, 7, and 8 on the Buffalo Oil Company's Baish A lease had first produced from the Yates formation, but had been deepened to the regular Maljamar pay. Since the designation of the Baish Pool there has been four wells drilled in that pool to the Yates sand. On April 9, 1948 Buffalo Oil Company completed its Baish A-17-Y well as a 14 barrel well. On May 26, 1948 Buffalo Oil Company completed its Baish A-18-Y well as a 24 barrel producer. On July 25, 1948 Buffalo Oil Company completed its Baish A-19-Y well as a 10 barrel well. Wells 17-Y, and 18-Y are located in the south half of the Northeast Quarter, and 19-Y is in the Northeast Quarter of the Southwest Quarter, all in Section 21, T 17 S, R. 32 E. The fourth well drilled in the Baish Pool was a dry hole drilled by Kewanee Oil Company in the Northwest Quarter of the Northwest Quarter of Section 28-17-32 as their Baish B-33 well.

The three producing wells now in the Baish Pool<sup>are</sup> on the pump. Baish A-17-Y is now producing 7 barrels of oil per day with a gas-oil ratio of 349 cubic feet of gas per barrel of oil. No. 18-Y is pumping 11 barrels of oil per day with a gas-oil ratio of 1288 cu. ft. of gas per barrel of oil. No. 19-Y is pumping 2 barrels of oil per day with a gas-oil ratio of 512 cu. ft. of gas per barrel of oil.

It is probable no further drilling will be done in this pool.

It is believed that the applicable State Wide Rules and the Federal Regulations amply cover the operations in this pool at the present. We have no suggestions to offer at this time as to special field rules for the Baish Pool.

Yours very truly,

BUFFALO OIL COMPANY
