Attention: Mr. Ralph Gray

Gentlemen:

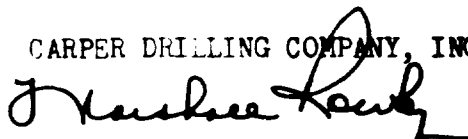

We have no objection to your request for the removal of the limiting gas-oil ratio from the field rules adopted for the Maljamar Padlock Pool by the New Mexico Oil Conservation Commission.

We realize it will be necessary for you to produce enough oil from this horizon to make it a paying proposition and that you would not be able to do so without increasing the gas-oil ratio since you have only a few feet of effective pay and very low permeability.

As one of the members of the Maljamar Cooperative Repressuring Agreement, we also appreciate the time at which you propose to produce this well, and that is when the plant has insufficient gas to operate the compressors at capacity.

Sincerely,

CARPER DRILLING COMPANY, INC.

Marshall Rowley
